Combined Annual Meeting Overview

Saturday, October 17

8:00 AM–12:00 Noon	STP Pre-Meeting CE Course 1: All Eyes Focused on Ocular Toxicology and Pathology
8:00 AM–5:00 PM	ACVP Primate Pathology Pre-Meeting Workshop: Non-Human Primate Genetics and Geography: Impact on Study Design, Interpretation, and Results
8:00 AM–5:00 PM	ASVCP and STP CFIG Combined Pre-Meeting Workshop: Application of New Renal and Hemostatic Biomarkers in Veterinary Medicine and Preclinical Safety: What Can We Learn from Each Other?
8:00 AM–5:00 PM	C.L. Davis Foundation Pre-Meeting Workshop: The Life (and Death) Aquatic
9:00 AM–4:30 PM	NTP Satellite Symposium: Pathology Potpourri
1:30 PM–5:30 PM	STP Pre-Meeting CE Course 2: The Use of Pigs in Biomedical Research
5:15 PM–6:15 PM	ACVP Career Session: Job Searching 2.0: Using Social Media and Connections to Find Your Right Job
5:30 PM–7:30 PM	Trainee Mixer
6:00 PM–8:00 PM	ASVCP Education Forum for Discussion: Clinical Pathology in the DVM Curriculum
7:00 PM–8:30 PM	Opening Reception, Exhibits, Silent Auction

Sunday, October 18

8:00 AM–12:00 Noon	ACVP, ASVCP, and STP Combined Career Development Session: Visualizing Pathology Data
8:00 AM–12:00 Noon	ASVCP Education Symposium: Biomarkers in Veterinary Clinical Pathology
8:00 AM–12:00 Noon	Concurrent Session I: Diagnostic Veterinary Dermatopathology
8:00 AM–12:00 Noon	Natural Disease Focused Scientific Session I
8:00 AM–12:00 Noon	STP and Industrial and Toxicologic Pathology Focused Scientific Session
9:30 AM–4:30 PM	Exhibits and Silent Auction
9:30 AM–4:30 PM	Focused Scientific Poster Session and ACVP Veterinary Student Posters
12:00 Noon–1:30 PM	Veterinary Pathology Resident/Trainee Luncheon
12:00 Noon–4:00 PM	ASVCP Veterinary Laboratory Professionals Session I
12:15 PM–1:15 PM	Emerging Disease Focused Seminar: Corona Virus
1:30 PM–4:30 PM	Clinical Pathology Focused Scientific Session I
1:30 PM–5:00 PM	Diagnostic Pathology Focused Scientific Session I
1:30 PM–5:00 PM	Experimental Disease Focused Scientific Session I
1:30 PM–5:00 PM	Natural Disease Focused Scientific Session II
1:30 PM–5:00 PM	STP Focused Topic Scientific Session 1: Functional Anatomy and Physiology of Skin
4:30 PM–6:00 PM	ASVCP Business Meeting
5:15 PM–6:00 PM	ACVP Business Meeting
6:15 PM–7:30 PM	Combined ACVP and STP Town Hall Meeting: Core and Specialized Skill Sets for Veterinary Pathologists: An Interactive Town Hall Meeting on Future Needs
7:30 PM–9:30 PM	ACVP-STP Mystery Slide Review Session: Skin

Monday, October 19

8:00 AM–12:00 Noon	ACVP/ASVCP/STP Combined Plenary Session: Biomarkers
8:00 AM–12:00 Noon	ASVCP Veterinary Laboratory Professionals Session II
9:30 AM–1:00 PM	Exhibits and Silent Auction
9:30 AM–1:00 PM	Focused Scientific Poster Session and ACVP Veterinary Student Posters
12:15 PM–3:00 PM	Latin Comparative Pathology Group Presents
1:30 PM–3:30 PM	ASVCP-STP Case Discussion Session
1:30 PM–4:30 PM	Community Outreach Activity (CO-Act)
1:45 PM–3:00 PM	Meet the Pathologists: A Discussion of Careers in Pathology
3:00 PM–5:00 PM	Veterinary Student and Resident Forum
5:00 PM–6:30 PM	C.L. Davis Foundation Reception
5:15 PM–7:45 PM	ASVCP Reception
5:30 PM–7:00 PM	IDEXX Reception
7:00 PM–9:30 PM	Mystery Slide Review and Neuropathology Case Presentations

Tuesday, October 20

8:00 AM–12:00 Noon	Clinical Pathology Focused Scientific Session II
8:00 AM–12:00 Noon	Concurrent Session II: Genetically Engineered Large Animals
8:00 AM–12:00 Noon	Education Focused Scientific Session: Resident Training
8:00 AM–12:00 Noon	Mini-Symposium: Forensic Pathology
8:00 AM–12:00 Noon	STP Focused Topic Scientific Session 2: Pathology and Mechanisms of Skin Injury
8:15 AM–12:00 Noon	ASVCP Veterinary Laboratory Professionals Session III
9:30 AM–3:30 PM	Exhibits and Silent Auction
9:30 AM–3:30 PM	Focused Scientific Poster Session and ACVP Veterinary Student Posters
12:00 Noon–12:30 PM	Forensic Pathology Poster Session
12:00 Noon–2:00 PM	Helpful Advice or Disparaging Critic? Your Role as a Peer Reviewer for Manuscripts in Toxicologic Pathology and Veterinary Pathology
1:30 PM–5:00 PM	ASVCP and STP Mystery Slide Case Session
1:30 PM–4:50 PM	Diagnostic Pathology Focused Scientific Session II
1:30 PM–5:00 PM	Experimental Disease Focused Scientific Session II
1:30 PM–5:00 PM	STP Focused Topic Scientific Session 3: Models of Skin Disease
5:15 PM–6:00 PM	STP Business Meeting
6:00 PM–7:00 PM	IATP Business Meeting
6:15 PM–7:30 PM	ACVP and STP Combined Awards and Recognition Event
7:45 PM–10:00 PM	Presidents' Reception

Wednesday, October 21

7:00 AM–8:00 AM	STP Past Presidents Breakfast
8:00 AM–12:00 Noon	Concurrent Session III: Pathology of Avian/Exotics
8:00 AM–12:00 Noon	Concurrent Session IV: Flow Cytometry and Clonality Assays in Diagnostic Hematopathology
8:00 AM–12:00 Noon	Mini-Symposium II: Medical Device Pathology
8:00 AM–12:00 Noon	STP Focused Topic Scientific Session 4: Case Studies of Cutaneous Toxicity, Direct and Systemic
1:00 PM–5:00 PM	ACVP/ASVCP/STP Post-Meeting Workshop I: Case-Based Molecular Pathology: State-of-the-Art
1:00 PM–5:00 PM	Post-Meeting Workshop II: Mouse Central Nervous System Neuropathology

Welcome...

to the first ever ACVP/ASVCP/STP Combined Annual Meeting. Highlighted below, the meeting is packed with scientific content sure to provide something for everyone while also offering abundant intersocietal opportunities for networking and collaboration.

Saturday

The meeting kicks off Saturday with three Pre-Meeting Workshops, two STP Pre-Meeting CE Courses, and the ever popular NTP Satellite Symposium.

STP Pre-Meeting CE Course 1: All Eyes Focused on Ocular Toxicology and Pathology

ACVP Pre-Meeting Workshop: Non-Human Primate Genetics and Geography: Impact on Study Design, Interpretation, and Results

ASVCP and STP CFIG Combined Pre-Meeting Workshop: Application of New Renal and Hemostatic Biomarkers in Veterinary Medicine and Preclinical Safety: What Can We Learn from Each Other?

C.L. Davis Foundation Pre-Meeting Workshop: The Life (and Death) Aquatic

NTP Session: Pathology Potpourri

STP Pre-Meeting CE Course 2: The Use of Pigs in Biomedical Research

Sunday

Sunday morning, ACVP, ASVCP, and STP team up to present the Career Development Session, "Visualizing Pathology Data." ACVP and STP team up to bring the Industrial and Toxicologic Pathology Focused Scientific Session (FSS). The ASVCP Education Symposium begins with, "Biomarkers in Veterinary Clinical Pathology." The ACVP program on Sunday includes FSS's in Natural Disease, Diagnostic Pathology, Clinical Pathology, Experimental Disease, the first Concurrent Session, "Diagnostic Veterinary Dermatopathology," and the Emerging Disease Session. The STP Focused Topic Sessions on skin begin with an afternoon session, "Functional Anatomy and Physiology of Skin." Sunday concludes with an ACVP/STP Mystery Slide Conference on skin.

Monday

The ACVP/ASVCP/STP Combined Plenary Session, "Biomarkers," co-chaired by Bob Dunstan, Elizabeth Howerth, and Anne Provencher will discuss what biomarkers are, the types of biomarkers that are currently being developed, and what it takes to validate them for regulatory approval. The much anticipated ACVP/STP Neuropathology Mystery slide session will be held Monday evening.

Tuesday

STP education programming continues with the second and third sessions on Skin, "Pathology and Mechanisms of Skin Injury" and "Models of Skin Disease." ACVP presents the second Concurrent Session, "Genetically Engineered Large Animals" and the first Mini-symposium, "Forensic Pathology." ACVP will also have Focused Scientific Sessions in Natural Disease, Experimental Disease, and Education. The Education FSS will have a special focus this year on Residency Training. The final ACVP/ASVCP Clinical Pathology FSS will be held Tuesday afternoon.

Wednesday

Wednesday morning, the STP scientific sessions will conclude with, "Case Studies of Cutaneous Toxicity, Direct and Systemic." ACVP and ASVCP will have a Concurrent Session, "Flow Cytometry and Clonal Assays in Diagnostic Hematopathology." There will also be an ACVP Concurrent Session, "Pathology of Avian and Exotic Animals" and a Mini-Symposium, "Medical Device Pathology." The meeting will conclude Wednesday afternoon with two post meeting workshops:

ACVP/ASVCP/STP: Case-Based Molecular Pathology: State-of-the-Art

ACVP Focused Group: Mouse Central Nervous System Neuropathology

It's been great fun to organize the educational content for this ACVP/ASVCP/STP Combined Annual Meeting. We hope that you enjoy this unique meeting and the opportunities for learning and synergizing with our colleagues.

ACVP | ASVCP | STP

Combined Annual Meeting | October 17–21, 2015

www.acvp.org | www.asvcp.org | www.toxpath.org

ACVP and ASVCP Committee Meetings

The following ACVP and ASVCP committee meetings are scheduled at the Combined Annual Meeting.

Friday, October 16

8:00 AM–5:00 PM	ACVP Council Room 202A, Minneapolis Convention Center
3:00 PM–9:00 PM	ASVCP Executive Board Lake Harriet, Hyatt Regency Hotel (4 th floor)

Saturday, October 17

8:00 AM–5:00 PM	ACVP Council Room 202A, Minneapolis Convention Center
8:00 AM–4:00 PM	ASVCP Executive Board Lake Harriet, Hyatt Regency Hotel (4 th floor)
12:00 Noon–1:30 PM	ACVP Council and ASVCP Executive Board Meeting Skyway A, Hyatt Regency Hotel (2 nd floor)
12:00 Noon–2:00 PM	Veterinary Pathology Editors Luncheon Greenway A, Hyatt Regency Hotel (2 nd floor)
4:00 PM–6:00 PM	ASVCP Executive Board and Committees Lakeshore A, Hyatt Regency Hotel (Lobby Level)
5:00 PM–8:00 PM	ACVP Education Committee Lakeshore B, Hyatt Regency Hotel (Lobby Level)
6:00 PM–9:00 PM	ACVP Exam Committee Lake Harriet, Hyatt Regency Hotel (4 th floor)
8:00 PM–9:00 PM	ASVCP Education Committee Greenway A, Hyatt Regency Hotel (2 nd floor)

Sunday, October 18

6:30 AM–8:00 AM	ASVCP Regulatory Affairs Committee Lakeshore C, Hyatt Regency Hotel (Lobby Level)
7:00 AM–8:00 AM	ASVCP Web and Social Outreach Committee Greenway D, Hyatt Regency Hotel (2 nd floor)
8:00 AM–9:30 AM	Veterinary Pathology Editorial Board Meeting Skyway A, Hyatt Regency Hotel (2 nd floor)
8:00 AM–5:00 PM	ACVP Council Room 202A, Minneapolis Convention Center
12:00 Noon–1:30 PM	Veterinary Clinical Pathology Editorial Board Meeting Lakeshore B, Hyatt Regency Hotel (Lobby Level)
2:30 PM–3:30 PM	Council and Education Committee Meeting Lakeshore A, Hyatt Regency Hotel (Lobby Level)
7:30 PM–9:00 PM	ACVP Council and STP Executive Committee Dinner Lakeshore B, Hyatt Regency Hotel (Lobby Level)

Monday, October 19

7:00 AM–8:00 AM	ASVCP Program Committee Skyway A, Hyatt Regency Hotel (2 nd floor)
-----------------	---

7:00 AM–8:00 AM

ASVCP Quality Assurance and Standards Committee

Lakeshore B, Hyatt Regency Hotel (Lobby Level)

7:00 AM–8:00 AM

ACVP Certifying Examination Board

Greenway A, Hyatt Regency Hotel (2nd floor)

7:00 AM–8:00 AM

ACVP Council and Exam Committee Meeting

Regency Room, Hyatt Regency Hotel (2nd floor)

7:00 AM–8:00 AM

ACVP Training Program Committee

Mirage, Hyatt Regency Hotel (2nd floor)

7:00 AM–9:00 AM

ACVP Member Relations Committee

Greenway F, Hyatt Regency Hotel (2nd floor)

12:15 PM–1:15 PM

ACVP Development Committee

Skyway A, Hyatt Regency Hotel (2nd floor)

12:15 PM–1:15 PM

ACVP Lifelong Learning Committee

Greenway A, Hyatt Regency Hotel (2nd floor)

12:15 PM–1:15 PM

ACVP Online Publication Task Force

Lakeshore A, Hyatt Regency Hotel (Lobby Level)

Tuesday, October 20

7:00 AM–8:00 AM

ASVCP Veterinary Laboratory Professionals Program Committee

Lakeshore B, Hyatt Regency Hotel (Lobby Level)

7:00 AM–8:00 AM

Awards Committee

Greenway A, Hyatt Regency Hotel (2nd floor)

7:30 AM–12:00 Noon

ACVP Strategy Workshop

Lake Harriet, Hyatt Regency Hotel (4th floor)

8:00 AM–12:00 Noon

ACVP Council

Room 202A, Minneapolis Convention Center

12:00 Noon–1:30 PM

ACVP Strategy Workshop Debriefing Luncheon

Lakeshore A, Hyatt Regency Hotel (Lobby Level)

12:00 Noon–1:30 PM

ACVP/STP Coalition for Veterinary Pathology Business Luncheon

Lakeshore B, Hyatt Regency Hotel (Lobby Level)

1:30 PM–3:30 PM

ACVP/STP Coalition for Veterinary Pathology Fellows Board of Governors Meeting

Skyway A, Hyatt Regency Hotel (2nd floor)

2:00 PM–5:00 PM

ACVP Council

Executive Boardroom, Hyatt Regency Hotel (4th floor)

3:00 PM–4:00 PM

Certification Examination Board

Lakeshore B, Hyatt Regency Hotel (Lobby Level)

Wednesday, October 21

7:00 AM–8:00 AM

Focused Scientific Groups Meeting

Regency Room, Hyatt Regency Hotel (2nd floor)

8:00 AM–12:00 Noon

ACVP Council

Room 202A, Minneapolis Convention Center

STP Committee Meetings

The following STP committee meetings are scheduled at the Combined Annual Meeting.

Saturday, October 17

All Saturday meetings will be held at the Hyatt Regency Hotel

1:00 PM–6:00 PM **Executive Committee Meeting**
Lakeshore C (Lobby Level)

Sunday, October 18

All Sunday meetings will be held at the Hyatt Regency Hotel

12:00 Noon–1:30 PM **INHAND Minipig Working Group**
Greenway (2nd floor)

7:30 PM–9:00 PM **ACVP Council and STP Executive Committee Dinner**
Lakeshore B (Lobby Level)

Monday, October 19

All Monday meetings will be held at the Hyatt Regency Hotel

6:10 AM–8:00 AM **Clinical Pathology Interest Group**
Greenway E (2nd floor)

6:30 AM–7:45 AM **Environmental Toxicologic Pathology Interest Group**
Greenway D (2nd floor)

7:00 AM–7:30 AM **INHAND Global Editorial and Steering Committee (GESC)**
Greenway C (2nd floor)

7:00 AM–8:00 AM **Fundraising Committee**
Greenway G (2nd floor)

7:00 AM–8:00 AM **Newsletter Committee**
Greenway H (2nd floor)

7:00 AM–8:00 AM **Education Committee**
Greenway I (2nd floor)

7:00 AM–8:00 AM **Internet Committee**
Greenway J (2nd floor)

7:30 AM–9:00 AM **INHAND GESG/OWG Chairs Joint Meeting**
Greenway C (2nd floor)

12:00 Noon–1:00 PM **Joint Education-Based Committee**
Greenway G (2nd floor)

12:00 Noon–1:30 PM **Scientific and Regulatory Policy Committee**
Greenway H (2nd floor)

1:30 PM–2:30 PM **Committee Chairs/Executive Committee**
Greenway D (2nd floor)

2:30 PM–6:00 PM **Executive Committee Meeting**
Greenway D (2nd floor)

Tuesday, October 20

All Tuesday meetings will be held at the Hyatt Regency Hotel

6:30 AM–8:00 AM **Neuropathology Interest Group**
Greenway DE (2nd floor)

7:00 AM–8:00 AM **CDOC Career Development Subcommittee**
Greenway I (2nd floor)

7:00 AM–8:00 AM **Membership Committee**
Greenway J (2nd floor)

7:00 AM–9:00 AM **Cardiovascular Toxicologic Pathology Interest Group**
Greenway H (2nd floor)

8:00 AM–9:00 AM **CDOC Student Interactions Subcommittee**
Greenway I (2nd floor)

ACVP/ASVCP Awards

ACVP/AAVLD Diagnostic Pathology Travel Award

The American College of Veterinary Pathologists (ACVP) and the American Association of Veterinary Laboratory Diagnosticians (AAVLD) encourage trainees in veterinary pathology to participate in the Annual Meetings of both organizations. The Seventh Annual ACVP/AAVLD Diagnostic Pathology Travel Award is available to graduate students and/or residents in veterinary pathology for travel to and participation in the Annual Meeting of the AAVLD. The recipient will be awarded a \$1,000 grant from the ACVP to help defray travel and lodging costs associated with attending the AAVLD Annual Meeting. The recipient will be granted a waiver for the AAVLD meeting registration fee. The recipient will be announced at the ACVP and STP Combined Awards and Recognition Event on Tuesday, October 20, from 6:15 pm–7:30 pm in Room 101A.

ACVP/AAVLD Diagnostic Pathology Travel Award Judges

Giselle Cino-Ozuna, DVM*; Rob Foster, BVSc, PhD*; Nancy Stedman, DVM, PhD*

ACVP Young Investigator Awards

The Young Investigator Award Poster Competition encompasses four categories: diagnostic pathology, experimental disease, industrial and toxicologic pathology, and natural disease. Each of these categories will have monetary awards of \$500 for first place, \$300 for second place, and \$200 for third place. Judging will take place at the Annual Meeting.

The Young Investigator Award winners' names will be announced at the ACVP and STP Combined Awards and Recognition Event on Tuesday, October 20, from 6:15 pm–7:30 pm in Room 101A. Winners are asked to come to the front of the room for a photo after the event.

Recipients of the 2015 Young Investigator Awards are asked to display their posters in the Exhibit Hall B Foyer on Wednesday, October 21, from 8:00 am–12:00 noon. Poster boards will be provided for the display.

ASVCP Lifetime Achievement Award

The ASVCP Lifetime Achievement Award, established in 2004, recognizes members of the Society who have contributed to the advancement of the field of veterinary clinical pathology. The award is presented at our Annual Meeting. A call for nominations for the award is put out to ASVCP members. This year, in order to mark the occasion of the ASVCP's 50th anniversary, awards are being presented to two Society members who have significantly contributed, in different fields, to the advancement of veterinary clinical pathology.

Dr. Alan H. Rebar

Nominated by: Marlyn Whitney

Dr. Alan H. Rebar received his DVM degree and his PhD from Purdue University and is a diplomate from the American College of Veterinary Pathologists. He is the Senior Associate Vice President for Research and Executive Director of

Discovery Park at Purdue University. His *curriculum vitae* and letters of support provide ample evidence of a stellar career, including his tremendous teaching accomplishments, his fostering of ties between academic and non-academic institutions, and his advancement into administrative duties. His many and varied achievements in the practice and promotion of veterinary clinical pathology make him uniquely deserving of the award. His *curriculum vitae* is strong evidence of his many far-reaching contributions. The positive effects he has had on many members of our Society, the impact of his tremendous professional achievements, and the high regard in which he is held by his colleagues are unanimously recognized. Early in his career he envisioned where clinical pathology could go as a specialty, and he has worked and continues to work tirelessly to bring his vision to fruition. Al Rebar is unquestionably a hard worker, and he successfully challenges others to follow his example and thus to achieve their potential, whatever it may be. Our Society and our specialty could ask for no better practitioner, promoter, supporter, and friend than Alan Rebar.

Dr. Robert L. Hall

Nominated by: Anne Provencher

Dr. Robert L. Hall received his DVM degree from The Ohio State University and his PhD from Colorado State University, and he is a diplomate from the American College of Veterinary Pathologists. He is a senior Clinical Pathologist at Covance Laboratories. Dr. Hall

spent most of his professional career with Covance Laboratories and remained, at the same time, adjunct assistant professor in the Department of Pathobiology at the School of Veterinary Medicine, University of Wisconsin-Madison. Dr. Hall has been a true pioneer in the field of toxicologic/laboratory animal clinical pathology. Throughout his career and many achievements, he made the pharmaceutical industry aware of the unique added-value that veterinary clinical pathology can provide to preclinical sciences and drug development. Bob's talent, charisma, and endless dedication to toxicologic clinical pathology enabled this specialty to be recognized as a most valuable expertise by a large scientific community.

Having spent all his career advancing toxicologic and laboratory animal clinical pathology, and by doing so creating a specialty now recognized as one of the most valuable scientific assets in drug development, as a true educator, as a pioneer, and as a wonderful mentor, it is a true honor for the ASVCP to award Dr. Robert L. Hall the Lifetime Achievement Award.

ASVCP Young Investigator Award

The ASVCP presents a \$500 Young Investigator Award to the resident or graduate student whose oral platform presentation is judged best among the competing presentations. Eligibility requirements include a degree in veterinary medicine and enrollment in a residency or graduate program in pathology/clinical pathology or a related discipline. The oral presentation must describe original work of the competitor involving clinical or experimental research that relates to clinical pathology. Award selection is determined by an independent panel of judges and is based on the scientific content, abstract composition, clarity of presentation, and

the contestant's ability to answer questions. The recipient of the ASVCP Young Investigator Award will be announced at the start of the ASVCP and STP Mystery Slide Case Session on Tuesday, October 20 at 1:30 pm in Room 101F.

Judges

Melinda Camus, DVM*; Carolyn Grimes, DVM*;
Florence Poitout, DVM*; Lila Ramaiah, DVM, PhD*

Society of Toxicologic Pathology Student Poster Award

The Society of Toxicologic Pathology (STP) is pleased to announce the Tenth Annual STP Student Poster Award to encourage students to pursue careers in the field of Toxicologic Pathology. The 2015 recipient will receive free registration plus \$1,000 to be used for lodging and travel to the 2016 STP Annual Meeting, which will take place June 26–30 in San Diego, California, and may be asked to present the poster at that meeting.

To be eligible to compete for this award, students must have obtained a degree in veterinary medicine and be enrolled in a residency or graduate program in toxicologic pathology/general pathology/clinical pathology or a related discipline. The abstract must describe original work of the competitor involving clinical or experimental research that relates to industrial and/or toxicologic pathology. The content may include *in vitro* or *in vivo* studies. The award selection will be determined by an independent panel of judges and will be based on the scientific content, composition of the poster, clarity, and the presenter's ability to answer questions. Trainees in clinical and/or morphologic pathology are encouraged to apply for the award.

The award will be given to the veterinary resident or graduate student whose poster is judged best among up to five finalists at the 2015 ACVP/ASVCP/STP Combined Annual Meeting. The 2015 applicant should follow the guidelines for application for the ACVP Young Investigator Award in Industrial and Toxicologic Pathology to be eligible for this award.

The recipient will be announced at the ACVP and STP Combined Awards and Recognition Event on Tuesday, October 20, from 6:15 pm–7:30 pm in Room 101A.

STP Student Poster Award Judges

Basel T. Assaf, BVSc, PhD*; Lisa Berman-Booty, VMD, PhD; Danielle L. Brown, DVM*; Tracy Carlson, BS, DVM, PhD*; Vinicius S. Carreira, DVM, PhD*; Mary E. Carsillo, DVM, PhD*; Beth Chaffee, DVM, PhD*; L. Wayne Dochterman, DVM*; Rodney K. Frank, DVM, PhD*; Lisa Lanigan, BS, DVM, PhD*; Keith G. Nelson, DVM, PhD*; Aaron M. Sargeant, DVM, PhD*; Leah Schutt, DVM, DVSc*; Sarah H. Tannehill-Gregg, DVM, PhD*; Lyn Miller Wancket, DVM, PhD*; Bevin Zimmerman, DVM, PhD*

Veterinary Student Poster Awards

For the 11th year in a row, ACVP is offering an award for veterinary students, which requires submission of an abstract followed by a quality poster presentation of pathology-related research work or clinical case material. The posters will be judged by the Student Chapter Committee representatives during the Annual Meeting. There will be two awards this year, one for an experimental disease poster and one for a clinical case report/series. A monetary prize of \$250 will go to the recipients (for group entries, the award is split among members) with another award of \$250 to the recipients' ACVP-recognized Student Chapter. Awards will be announced at the ACVP and STP Combined Awards and Recognition Event on Tuesday, October 20 from 6:15 pm–7:30 pm in Room 101A. Candidates are encouraged to attend!

Veterinary Student poster abstracts are available on the ACVP website at www.acvp.org and on the mobile app.

Veterinary Student Poster Award Judges

Society of Toxicologic Pathology Young Investigator Awards

The 2015 STP Young Investigator Award winners will be announced at the ACVP and STP Combined Awards and Recognition Event in Room 101A at 6:15 pm on Tuesday, October 20.

STP 2015 Lifetime Achievement Award

The Society of Toxicologic Pathology (STP) Lifetime Achievement Award is given to a member in good standing who has played critical and influential roles in the area of toxicologic pathology and has made significant contributions for 20 years or more. Achievement may be demonstrated by a body of work in any or all of the following areas: scientific discovery, education, regulatory standards, or service to the Society of Toxicologic Pathology.

The STP is proud to honor **Samuel M. Cohen, MD, PhD** as the recipient of the 2015 STP Lifetime Achievement Award.

Dr. Cohen received his BS, MD, and PhD degrees from the University of Wisconsin. He is a board certified pathologist and has served as staff pathologist at

St. Vincent Hospital and up to an Associate Professor at the University of Massachusetts Medical School. He was visiting professor with Dr. Nobuyuki Ito in Nagoya, Japan. He was recruited to the University of Nebraska Medical Center, where he has served as Professor, Vice Chairman and Chairman of the Department of Pathology and Microbiology, as well as Havlik-Wall Professor of Oncology.

In addition to his academic and service roles, Dr. Cohen has made seminal discoveries in toxicologic pathology. He was one of the first scientists to fully grasp the critical role of cell proliferation in mutagenesis and carcinogenesis. His research on saccharin led to its down classification by IARC and removal from the NTP List of Carcinogens. Dr. Cohen is one of the most highly sought experts in chemical safety, including drug safety, with extensive knowledge regarding PPAR α and γ agonists amongst several other drug classes. Likewise, he has international expertise in urinary bladder pathology and carcinogenesis. He has served on Editorial Boards as a reviewer and Associate Editor for multiple journals and has received several honors and awards from professional societies. He has and continues to serve on multiple Advisory Panels, including: International Life Science Institute (ILSI) - Health and Environmental Sciences Institute Board of Trustees (HESI), 2001-present; Chairman, 2006-2008;

ILSI Board of Trustees, 2007-present; Chairman, 2012-2015; National Institute of Environmental Health Sciences (NIEHS) (2008-2013) and National Toxicology Programs (2002-2004) Boards of Scientific Counselors; WHO-IPCS, Expert Panel on Carcinogens, 1999-2006; Expert Panel of the Flavors and Extracts Manufacturers Association, 2002-present; as well as numerous committees and panels with NIH, EPA, FDA, WHO, IARC, IPCS, and various other national and international scientific organizations. His career has clearly impacted regulatory decision making, bringing more science into the risk assessment, and human relevance of various toxicologic findings.

STP 2015 Outstanding Mentor Award

The Society of Toxicologic Pathology (STP) Outstanding Mentor Award is given to a member in good standing who has played a significant role in the training of toxicologic pathologists. The award is intended for individuals who have mentored pathologists as part of formal training programs as well as individuals who have consistently provided informal coaching or instruction.

The STP is proud to honor **Thomas J. Rosol, DVM, PhD, DACVP**

as recipient of the 2015 STP Outstanding Mentor Award. Dr. Rosol has been instrumental in the training of numerous toxicologic pathologists, as well as contributing to

many other educational activities for the STP. He is currently Professor in the Department of Veterinary Biosciences at the Ohio State University and Senior Advisor for Life Sciences to the Office of Technology Commercialization and Knowledge Transfer. During his tenure at the Ohio State University, Dr. Rosol has a longstanding research program funded by the NIH. He has served in multiple academic and administrative roles, including dean of the College of Veterinary Medicine and Vice President for Research. He has always maintained a strong dedication to his students and their graduate education.

Dr. Rosol provides invaluable expertise in toxicologic pathology of the endocrine, bone, and reproductive systems, supporting numerous educational venues for both students and seasoned professionals alike; however, it is his support of graduate education of

pathology trainees, resulting in the generation of investigatory (toxicologic) pathologists, that is his most significant contribution.

Graduate education leading to a PhD is a demanding responsibility, which is important to the continued excellence of our profession, creates a vibrant intellectual environment in which testable hypotheses can be pursued, and is challenging from a funding standpoint reflecting both the cost of state-of-the-art biomedical research and the highly competitive funding arena. We measure student success based upon publications emanating from their dissertation research, extramural fellowships awarded to support these endeavors, national awards made in recognition of the quality of student accomplishments, and the subsequent career progression. These successes are unquestionably the achievement of the student – performed within an environment created by a skilled mentor. Required is the ability to recruit talent and resist the temptation to micromanage. The successful mentor must allow the student to experience both the success and failure that are keys to developing a sense of project ownership. Tom Rosol is such a mentor. All in all, he has served as the mentor of nearly two dozen PhD candidates (19 completed and four current) and more than 20 postdoctoral fellows – many of whom play important roles in toxicologic pathology and are members of the STP and/or ESTP. His trainees have become effective and important contributors within pharmaceutical companies, contract research organizations, and academia. The diversity of professional roles his trainees have indicates that he trains pathologists with the type of broad-based skills that enable them to adapt as needed. In addition, several of his trainees have had significant leadership roles either within their company or within the STP. Dr. Rosol's guidance and mentorship were imperative in developing their leadership capabilities and their commitment to professional organizations such as the STP.

While possessing the qualities essential to a mentor, Dr. Rosol also embraces the vision and goals of the Society of Toxicologic Pathology. In doing so, he inspires his students and colleagues to build upon their talents and grow personally and professionally, stimulating their careers and promoting the field of toxicologic pathology. As such, the STP is pleased to recognize Dr. Thomas Rosol as the 2015 Outstanding Mentor Awardee.

STP 2015 Distinguished Early Career Award

The Society of Toxicologic Pathology (STP) Distinguished Early Career Award is given to a member in good standing who has made significant, early career advances in toxicologic pathology. The award is intended for young investigators (within 10 years of residency/postdoctoral study completion) who have distinguished themselves in industry, government, education, and/or public service.

The STP is proud to honor **Torrie A. Crabbs, DVM, DACVP** as the 2015 STP Distinguished Early Career Awardee. Dr. Crabbs received her BS in biology and a minor in chemistry from the University of Pittsburgh at Johnstown, Pennsylvania, in 1999, and her DVM

from North Carolina State University, Raleigh, North Carolina, in 2006. While still in veterinary school she participated in a summer internship with GlaxoSmithKline. She helped develop techniques for scoring and evaluating lesions in heart valves of rats treated with amphetamine. This timely work helped contribute to the understanding of a significant public health issue: the spontaneous death of athletes using amphetamine to enhance performance. For this work and her overall contribution to pathology while a student at NCSU, Dr. Crabbs was awarded the R.C. Dillman Award for Excellence in Anatomic and Clinical Pathology. She was a Veterinary Anatomic Pathology Resident (ACVP/STP Coalition Fellow) at the University of California-Davis School of Veterinary Medicine, Davis, California, and at GlaxoSmithKline, King of Prussia, Pennsylvania, in 2009.

Following her residency training, Dr. Crabbs was selected as an Intramural Postdoctoral Fellow (IRTA) at the National Institute of Environmental Health Sciences (NIEHS), Research Triangle Park, North Carolina, in the Cellular and Molecular Pathology Branch (2009–2010). In this position, she ensured pathology data generated during Toxicology/Carcinogenesis studies were accurate, consistent, and appropriately reported. She participated in various Pathology Working Groups. In 2010, Dr. Crabbs joined Experimental

Pathology Laboratories, Inc. (EPL) located in Research Triangle Park, North Carolina, where she continued to support the NIEHS mission. She made significant contributions in the advancement of toxicologic pathology by collaborating with various intramural and extramural investigators. She worked closely with Dr. Samuel Cohen, the STP 2015 Lifetime Achievement Awardee, to characterize the cell of origin in spontaneous and chemically induced hemangiosarcomas and hemangiomas in mice. In addition, her expert analysis of the lesions characterized by intestinal lymphangiectasis and lipidosis in rats was invaluable in reporting on the toxicity of indole-3-carbinol (I3C).

Additionally, Dr. Crabbs has been a prolific contributor to research and publication in her areas of interest: carcinogenesis, urinary system, and respiratory system pathology. She has published at least 12 papers or book chapters and presented more than 22 platform seminars and posters at local, national, and international meetings. She authored the soft tissue section for the Non-Neoplastic Lesion Atlas for the NTP as well as the Rodent Respiratory Tissue Collection Protocol CD. This CD is a joint production between EPL and NTP and provides industry and academia with best-practice guidance on the collection of the respiratory track in rodents.

Dr. Crabbs has served as a session Chair/Co-Chair for various organizations, including the ACT, ACVP – Industrial and Toxicologic Pathology Focused Scientific Session, and the RTP Rodent Pathology Course. She currently serves on the ACVP/STP Coalition for Veterinary Pathology as a member of the Board of Governors. Finally, she has peer reviewed several submitted papers for *Toxicologic Pathology* and other scientific journals. For her significant, early career advances in toxicologic pathology, the STP is pleased to recognize Dr. Torrie Crabbs as the recipient of the 2015 Distinguished Early Career Award.

Meeting Events

Opening Reception

Saturday, October 17, 7:00 PM–8:30 PM

Exhibit Hall B

The Opening Reception will kick off the week in the Exhibit Hall for all registered meeting attendees. Be sure to wear your badge for access to the Reception. Tickets for guests 18 years of age or older* accompanying a registered attendee may be purchased for \$30 at the registration desk.

**To ensure their safety, children under the age of 18 are not permitted in the Exhibit Hall.*

ACVP Silent Auction

Sunday–Tuesday Morning

Exhibit Hall B

ACVP is proud to present its 12th Annual Silent Auction at the 2015 Combined Annual Meeting! The Silent Auction will support externship scholarships for veterinary students exploring veterinary pathology as a career.

Visit the Silent Auction to place your bid on a treasure trove of items contributed by ACVP members and exhibitors. Silent Auction bids will be closed at 10:30 am on Tuesday, October 20. The highest bids/bidders will be announced on Tuesday afternoon at the Silent Auction area. Silent Auction winnings may be picked up at the ACVP Registration Desk located in Hall B Foyer prior to 1:00 pm on Wednesday, October 21.

ASVCP Business Meeting

Sunday, October 18, 4:30 PM–6:00 PM

Room 101 E

The ASVCP Annual Business Meeting will be held immediately before the Combined ACVP and STP Town Hall Meeting.

ACVP Business Meeting

Sunday, October 18, 5:15 PM–6:00 PM

Auditorium Lecture Hall 2

The ACVP Annual Business Meeting will be held immediately before the Combined ACVP and STP Town Hall Meeting.

Sunday, October 18, 6:15 PM–7:30 PM

Auditorium Lecture Hall 1

Community Outreach Activity (CO-Act): Clean the World

Monday, October 19, 1:30 PM–4:30 PM

Room 208A

Join your fellow meeting attendees for the ACVP Community Outreach Activity (CO-Act). This year, attendees will have the

opportunity to assemble hygiene kits for some of Minneapolis's homeless shelters and food pantries. To participate, please contact Linda Potchoiba at registrar@acvp.org. To learn more about the organization with whom ACVP is partnering, visit <https://cleantheworld.org>.

Thank you for volunteering!

50th Anniversary ASVCP Reception

Monday, October 19, 5:15 PM–7:45 PM

Lakeshore B, Hyatt Regency Hotel

All ASVCP members are invited to this Anniversary Reception. Please be sure to join your friends and colleagues!

STP Annual Business Meeting

Tuesday, October 20, 5:15 PM–6:00 PM

Room 101E

The STP Annual Business Meeting will be held immediately before the ACVP and STP Combined Awards and Recognition Event.

ACVP and STP Combined Awards and Recognition Event

Tuesday, October 20, 6:15 PM–7:30 PM

Room 101A

Award recipients will be recognized at this event.

Presidents' Reception

Tuesday, October 20, 7:45 PM–10:00 PM

Ballroom A

All attendees and registered guests are invited to the Presidents' Reception. Be sure to wear your badge for entry to this Reception. Additional tickets can be purchased on-site for \$65 (Children of attendees 11–17 yrs, \$35). Children under 11 years of age are permitted to attend the Presidents' Reception at no charge as long as the child is under the supervision of the parent at all times.

Thanks to Pfizer for sponsorship of this event!

ACVP/ASVCP Proceedings Online

The ACVP/ASVCP Proceedings (note this does not include the STP scientific sessions or CE courses) will be available online after the meeting at the International Veterinary Informational Service website (www.ivis.org). The IVIS library also includes veterinary textbooks and proceedings of major national and international veterinary organizations. Access to the IVIS Website is free; however, it is reserved for members of the veterinary community (practicing veterinarians, veterinary students, and technicians and scientists active in animal health). First-time visitors are required to complete a short registration form. Plan to visit the site in February to access the 2015 Proceedings!

STP CE Courses Online

STP Pre-Meeting CE Course 2: The Use of Pigs in Biomedical Research will be recorded and will be available for online credit after the meeting on the STP website (www.toxpath.org).

Registration

Registration will be located in the Hall B Foyer.

Registration Hours:

Friday, October 16.....	6:00 PM–8:00 PM
Saturday, October 17.....	7:00 AM–7:30 PM
Sunday, October 18.....	7:00 AM–5:00 PM
Monday, October 19.....	7:30 AM–1:30 PM
Tuesday, October 20.....	7:30 AM–5:00 PM
Wednesday, October 21.....	8:00 AM–1:00 PM

Registration Materials

Badges, Program, event tickets, and ribbons are available for pick up at the Registration Desk.

Meeting Materials

Meeting publications, handouts, ancillary meetings schedule, and evaluation forms are posted on the “Meeting Materials” page of the Combined Annual Meeting website.

Meeting Registration

Member, Nonmember, and Student full meeting registration fees include the symposium proceedings, access to scientific sessions, Exhibit Hall access, morning and afternoon breaks during the scientific sessions, and admission for one to the Opening Reception and Presidents’ Reception.

Exhibitor Registration

Three complimentary registrations are provided to exhibiting companies with the purchase of each booth. The Exhibitor registration fee includes admission to the scientific sessions, Exhibit Hall access, morning and afternoon refreshment breaks, and admission for one to the Opening Reception and Presidents’ Reception. Exhibitor Registration does not include RACE credits.

Guest Registration

The Guest registration fee includes daily access to the Guest Hospitality Suite (Skyway Suite B) at the Hyatt Regency Hotel, one admission to the Opening Reception, and one admission to the President’s Reception.

One-Day Registration

One-Day Registration is offered Sunday through Wednesday and includes scientific sessions, refreshment breaks, and Exhibit Hall access (Sunday–Tuesday). Tuesday includes admission for one to the President’s Reception.

Room 200F

Speakers (oral presenters) are required to download their presentations in the Speaker Ready Room prior to their sessions.

Speaker Ready Room Hours:

Saturday, October 17	12:00 Noon–7:00 PM
Sunday, October 18	7:00 AM–6:00 PM
Monday, October 19	7:00 AM–6:00 PM
Tuesday, October 20	7:00 AM–6:00 PM
Wednesday, October 21	7:00 AM–11:30 AM

Below are scheduled check-in times for speakers. Please review and make note of these times.*

If Your Presentation Date/Time is...	Then Your Time to Load Your Presentation is...
Sunday, October 18 8:00 AM–12:00 Noon	Report prior to 7:00 PM on Saturday, October 17
Sunday, October 18 1:30 PM–5:00 PM	Report prior to 10:30 AM on Sunday, October 18
Monday, October 19 8:00 AM–12:00 Noon	Report prior to 6:00 PM on Sunday, October 18
Tuesday, October 20 8:00 AM–12:00 Noon	Report prior to 6:00 PM on Monday, October 19
Tuesday, October 20 1:30 PM–5:00 PM	Report prior to 10:30 AM on Tuesday, October 20
Wednesday, October 21 8:00 AM–1:00 PM	Report prior to 6:00 PM on Tuesday, October 20
Wednesday, October 21 1:00 PM–5:00 PM	Report prior to 10:30 AM on Wednesday, October 21

**All pre-meeting workshop presenters are to report to their meeting rooms thirty (30) minutes in advance of the session start time. They do not need to check in at the Speaker Ready Room. All other speakers need to report to the Speaker Ready Room (does not apply to poster presenters).*

Exhibit Hall

Exhibit Hall B

The Exhibit Hall will be a center of activity during this year's combined meeting, kicking off with an Opening Reception on Saturday evening, October 17.

Scientific poster sessions and refreshment breaks will be held Sunday through Tuesday in the Exhibit Hall.

Microscopes will be available in the Exhibit Hall on Sunday, Monday, and Tuesday. This is a great opportunity for attendees to meet and discuss slides.

Visit the ACVP Silent Auction to place your bid on a treasure trove of items contributed by ACVP members and exhibitors. The Silent Auction supports externship scholarships for veterinary students exploring veterinary pathology as a career. Silent Auction bids will be closed at 10:30 am on Tuesday, October 20 and winners will be announced on Tuesday afternoon at the Silent Auction area.

We value the support of exhibitors and believe the relationship between exhibiting companies and our membership is a mutually beneficial one. Be sure to visit Exhibit Hall B!

Exhibit Hall Policies

Out of courtesy for the scientific presenters and exhibitors, we appreciate your compliance with the following policies:

Photography Policy

- Photography of poster presentations is prohibited without the specific consent of the presenter(s)/author(s).
- Photography of exhibitor booths and/or equipment is prohibited without the specific consent of the exhibitor.

Children Under 18 Years of Age

To ensure their safety, children under the age of 18 are not permitted in the Exhibit Hall at any time including during the Exhibits Opening, regular hours, Opening Reception, and Poster Sessions.

Exhibitor Setup:

Saturday, October 17 1:00 PM–6:30 PM
..... All exhibits must be set up by 6:30 PM

Exhibit Hall Hours:

Saturday, October 17 7:00 PM–8:30 PM
..... Opening Reception
Sunday, October 18 9:30 AM–4:30 PM
Monday, October 19 9:30 AM–1:00 PM
Tuesday, October 20 9:30 AM–3:30 PM

See inside back cover for a listing of 2015 exhibitors.

Exhibitor Teardown:

Tuesday, October 20 3:30 PM–8:00 PM

Continuing Education Credits

AAVSB RACE Provider #35

This program was reviewed and approved by the AAVSB RACE program for 118.00 CE Credits (44.00 max). Participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. Please contact the AAVSB RACE program if you have any comments/concerns regarding this program's validity or relevancy to the veterinary profession.

Verification of RACE credit will be sent to individuals by email after the meeting.

Continuing Education Credits for CE Courses and NTP Satellite Symposium

AAVSB RACE Provider #56

The STP CE Courses have been reviewed and approved for three to four hours of Continuing Education credits (per course) in jurisdictions which recognize AAVSB RACE approval. The NTP Satellite Symposium has been submitted but not yet approved for 5.5 hours. Participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of Continuing Education. Certificates of attendance will be provided at the conclusion each CE Course. Please contact the AAVSB RACE program if you have any comments/concerns regarding this program's validity or relevancy to the veterinary profession.

Mobile App

Download the free ACVP/ASVCP/STP Combined Annual Meeting mobile app through the iTunes store or Google Play. Access the personal scheduler, abstracts, program, proceedings, and more information about the Combined Annual Meeting!

Wireless Internet Access

Wireless internet service will be available free of charge in your hotel room if you have booked at one of the official meeting hotels. Complimentary basic wireless internet service is available at the Minneapolis Convention Center only in the lobby areas. Faster speed wireless internet is available for purchase at an additional fee.

If you are traveling from another country, please check your cell phone plan for international rates. Otherwise, we recommend putting your phone on airplane mode while accessing the mobile app at the Convention Center.

Internet Station

Sponsored by VIN

An Internet Station will be available in the Hall B Foyer near Registration.

Internet Station Hours:

Saturday, October 17	1:00 PM–8:30 PM
Sunday, October 18	7:00 AM–7:30 PM
Monday, October 19	7:00 AM–1:30 PM
Tuesday, October 20	7:00 AM–7:00 PM
Wednesday, October 21	7:00 AM–11:00 AM

Microscopes and Slide Sets

ACVP-STP Mystery Slide Review Session: Skin

Sunday, October 18 7:30 PM–9:30 PM
Room 102A

Slide sets will be available for review in Hall B on Sunday and Monday. Microscopes will be available at Room 102A one hour prior to the session.

ASVCP-STP Case Discussion Session

Monday, October 19 1:30 PM–3:30 PM
Room 101E

Slide sets will be available for review in Hall B on Sunday and Monday. Please be sure to leave the slide sets intact when you are finished so that others can review them.

Mystery Slide Review and Neuropathology Case Presentations

Monday, October 19 7:00 PM–9:00 PM
Room 102A

Slide sets will be available for viewing in Hall B on Sunday, October 18 from 9:30 AM–4:30 PM. Microscopes will be available at Room 102A one hour prior to the session.

You can preview the Mystery Slide Session slides by going to www.scanscope.com and clicking on the ACVP folder. Viewing is available for all PC and Mac users with WebViewer.

Thanks to Nikon Instruments, Inc. for facilitating the slide previews!

Program Evaluation Forms

A link to the online evaluation survey will be emailed to you after the meeting is over. Please complete the survey online. Your comments and suggestions will be reviewed for use in future meetings. Complete your form by November 21 to be eligible to win a complimentary registration to the 2016 ACVP and ASVCP Annual Meeting in New Orleans.

General Information

ACVP | ASVCP | STP
Combined Annual Meeting | October 17–21, 2015

Minneapolis, Minnesota

Minneapolis Convention Center

Safety and Security Tips

1. When inside the conference venue, nametags should be worn and visibly displayed at all times. For security reasons, we recommend that you DO NOT wear your badge outside of the conference venue. If you lose your badge, please notify registration immediately.
2. Walk in well-lighted areas, especially at night, and never alone.
3. Do not leave any bags or articles unsecured in any display area, meeting room, or public area. Laptops and other small computers are easy targets for thieves. If you note any suspicious articles, packages, persons, or activity, please contact the event staff or security immediately.
4. Due to the nature of our meeting, there is a risk that we may be the target of protest activity. Here are some guidelines to deal with protest activity:
 - a. If you see a protest forming or in progress, you should notify meeting or venue staff immediately. We will implement our response plan to ensure our meeting is safe and secure.
 - b. Do not attempt to engage or argue with protestors. These groups seek confrontation as a tool for publicity.
 - c. Do not give interviews to press personnel. Meeting representatives will respond to the press.
 - d. If you notice any suspicious individuals in the meeting areas or hotel, especially handing out literature, please notify meeting security or venue security personnel. You should not attempt to engage these persons or stop them yourself.
 - e. If there is a disruption in a meeting room, you should remain calm. Notify security and allow them to deal with the disruption.
5. Do not give your lodging information to any person outside of known meeting staff.
6. Photography is not permitted in the Exhibit Hall. This includes digital pictures taken using cell phone cameras.
7. Large packages and bags are not permitted in the Exhibit Hall area.

All Eyes Focused on Ocular Toxicology and Pathology—Sponsored by the American College of Toxicology (ACT)

Co-Chairs: Brian J. Christian, PhD, DABT, Covance Laboratories, Inc., Madison, WI; and Margarita M. Gruebbel, DVM, PhD, DACVP, EPL, Inc., Research Triangle Park, NC

The eye is often a target organ in toxicology studies. In order to determine the toxicological significance of effects in the eye, it is important to understand the basic structure and function of ocular tissues. Designing protocols for ocular toxicology studies also requires knowledge of species differences among the common testing laboratories as well as current methods for evaluation of ocular structures and functions. This session includes detailed reviews of anterior and posterior segments of the eye of common laboratory species; different tools used to determine treatment-related effects in ocular structures; and spontaneous and induced changes observed in each segment of the eye.

8:00 AM–8:10 AM

Introduction

Brian J. Christian, PhD, DABT, Covance Laboratories, Inc., Madison, WI

8:10 AM–9:00 AM

Comparative Anatomy and Histology of the Eye of Laboratory Animals

Margarita M. Gruebbel, DVM, PhD, DACVP, EPL, Inc., Research Triangle Park, NC

9:00 AM–9:45 AM

“Clinical” Assessment of the Anterior Segment in Laboratory Animals

Robert J. Munger, DVM, DACVO, Animal Ophthalmology Clinic, Dallas, TX

9:45 AM–10:15 AM

Break

10:15 AM–11:00 AM

Evaluation of the Anterior and Posterior Chambers and Iridocorneal Angle

Leandro Teixeira, DVM, MS, DACVP, University of Wisconsin, Madison, WI

11:00 AM–11:45 AM

Examination and Evaluation of the Posterior Segment in Toxicology Studies—Retina

Steven D. Sorden, DVM, PhD, DACVP, Covance Laboratories, Inc., Madison, WI

11:45 AM–12:00 Noon

Questions and Discussion

ACVP Primate Pathology Pre-Meeting Workshop

(Registration required)

8:00 AM–5:00 PM **Room 101E**

Non-Human Primate Genetics and Geography: Impact on Study Design, Interpretation, and Results

Chair: Vito Sasseville, DVM, PhD, DACVP, Novartis Institutes for Biomedical Research, Cambridge, MA

8:00 AM–8:15 AM

Welcome and Program Overview

Vito Sasseville, DVM, PhD, DACVP, Novartis Institutes for Biomedical Research, Cambridge, MA

8:15 AM–9:00 AM

DNA-Based Ancestry Determination of Rhesus (*Macaca mulatta*) and Cynomolgus Macaques (*Macaca fascicularis*)

Sree Kanthaswamy, BS(HONS), MPhil, PhD, Arizona State University, Glendale, AZ

9:00 AM–9:30 AM

Cynomolgus Monkey Origin: Clinical Pathology and Immunotoxicology Considerations

Nancy E. Everds, DVM, DACVP, Amgen, Inc., South San Francisco, CA

9:30 AM–10:00 AM

Retrospective Program Analysis

Karyn Colman, BVetMed, MRCVS, Novartis Institutes for Biomedical Research, East Hanover, NJ

10:00 AM–10:15 AM

Break

10:15 AM–10:45 AM

Comparison of Background Histopathology Findings in Asian and Mauritius Cynomolgus Macaques

Room 101F

Application of New Renal and Hemostatic Biomarkers in Veterinary Medicine and Preclinical Safety: What Can We Learn from Each Other?

Co-Chairs: Kirstin Barnhart, DVM, PhD, DACVP, AbbVie, Inc., North Chicago, IL; and Bill Reagan, DVM, PhD, DACVP, Pfizer, Inc., Groton, CT

Boxed lunches will be provided for registered attendees.

8:00 AM–8:10 AM

Welcome

Kirstin Barnhart, DVM, PhD, DACVP, AbbVie, Inc., North Chicago, IL; and Bill Reagan, DVM, PhD, DACVP, Pfizer, Inc., Groton, CT

Morning Session: Renal Biomarkers

8:10 AM–9:00 AM

Qualification of New Translational Kidney Safety Biomarkers for Drug Development

Warren Glaab, PhD, Merck, West Point, PA

9:00 AM–9:40 AM

Recent Developments in Canine Urinary Biomarkers

Mary Nabity, DVM, PhD, DACVP, Texas A&M University, College Station, TX

9:40 AM–10:10 AM

Assessing Immune Complex Glomerulopathy with Morphology and Biomarkers in Non-Human Primate Kidneys during Preclinical Safety Testing of Biologics

Tom P. Brown, DVM, MS, PhD, DACVP, Pfizer, Inc., Groton, CT

10:10 AM–10:30 AM

Break

10:30 AM–11:00 AM

Early Detection of AKI and CKD in Dogs and the Role of IRIS Guidelines

Mary Nabity, DVM, PhD, DACVP, Texas A&M University, College Station, TX

11:00 AM–11:50 AM

An Integrated Approach to Assessing Kidney Injury

Rachel Cianciolo, DVM, PhD, DACVP, The Ohio State University, Columbus, OH

11:50 AM–1:00 PM

Lunch Break

Afternoon Session: Hemostasis Biomarkers

1:00 PM–1:50 PM

Hemostasis Gaps in Preclinical and Clinical Studies—Biomarkers for Procoagulant States

A. Eric Schultze, DVM, PhD, FIATP, DACVP, Eli Lilly & Company, Indianapolis, IN

1:50 PM–2:40 PM

Comparative Hemostasis Testing: Beyond APTT and PT

Marjory Brooks, DVM, DACVIM, Cornell University, Ithaca, NY

2:40 PM–3:00 PM

Break

3:00 PM–3:20 PM

Monitoring Hypercoagulability in Pro-thrombotic Conditions and Hypocoagulability in Hemophilic Models, in Non-Human Primates

Florence Poitout, DVM, DECVCP, DACVP, Charles River Laboratories, Senneville, Quebec, Canada

3:20 PM–4:10 PM

Platelet Function Testing in Non-Human Primates

Kelly Metcalf Pate, DVM, PhD, DACLAM, Johns Hopkins University, Baltimore, MD

4:10 PM–4:40 PM

Platelet Isolation Techniques in Laboratory Animals and Platelet Function Testing in Dogs

Adam Aulbach, DVM, DACVP, MPI Research, Mattawan, MI

4:40 PM–5:00 PM

Buccal Mucosal Bleeding Time: Application in Pre-clinical Safety

Kirstin Barnhart, DVM, PhD, DACVP, AbbVie, Inc., North Chicago, IL

C.L. Davis Foundation Pre-Meeting Workshop

(Registration required)

8:00 AM–5:00 PM **Room 200A**

The Life (and Death) Aquatic

Co-Chairs: Jeffrey C. Wolf, DVM, DACVP, EPL, Inc., Sterling, VA; and Judy St. Leger, DVM, DACVP, SeaWorld Parks and Entertainment, San Diego, CA

This full-day course will cover topics from normal anatomy and histology to classic and important pathology in aquatic species. Species covered will include fish, amphibians, reptiles, birds, and marine mammals. The tag-team faculty will present material in a step-wise manner so that pathologists will be both engaged and educated. The workshop will focus on the identification of both normal anatomy and common diseases of these species including gross and histologic appearance, salient diagnostic features, and differential diagnosis. This exciting course should be of interest to both clinical and anatomic veterinary pathologists, pathology residents, and diagnosticians working with animals.

NTP Satellite Symposium

(Free event; Registration required)

9:00 AM–4:30 PM **Room 101A**

Pathology Potpourri

Chair: Susan A. Elmore, MS, DVM, DABT, FIATP, DACVP, NTP and NIEHS, Research Triangle Park, NC

9:00 AM–9:10 AM

Welcome and Introductory Remarks

Susan A. Elmore, MS, DVM, DABT, FIATP, DACVP, NTP and NIEHS, Research Triangle Park, NC

9:10 AM–9:30 AM

It's Not a Tumor?

David E. Malarkey, DVM, PhD, DACVP, NTP, NIEHS, Research Triangle Park, NC

9:30 AM–10:00 AM

Cardiomyopathy Shuffle

Rick Hailey, DVM, Covance, Inc., Chantilly, VA

10:00 AM–10:30 AM

Queries from the Zoo

Patricia A. Pesavento, DVM, PhD, DACVP, University of California, Davis, CA

10:30 AM–11:00 AM

Break

11:00 AM–11:30 AM

An Exigent Pancreatic Tumor?

Ramesh C. Kovi, BVSc&AH, MVSc, PhD, DACVP, EPL, Inc., Research Triangle Park, NC

11:30 AM–12:00 Noon

Intracranial Conundrums I

James P. Morrison, DVM, DACVP, Charles River Laboratories Pathology Associates, Durham, NC

12:00 Noon–1:30 PM

Lunch Break

1:30 PM–1:50 PM

Mammary Gland Development: The "Whole" Story

Erin Quist, DVM, MS, DACVP, NTP, NIEHS, Research Triangle Park, NC

1:50 PM–2:10 PM

Canine and Rodent Pulmonary Pathology: Are They the Same or Different?

Kathleen A. Szabo, DVM, MS, DACVP, Charles River Laboratories Pathology Associates, Durham, NC

The Use of Pigs in Biomedical Research

Co-Chairs: Lydia Andrews-Jones, DVM, PhD, DACVP, Allergan, Lake Forest, CA; and Kristie Mozzachio, DVM, DACVP, WIL Research, Hillsborough, NC

Swine are increasingly being used in biomedical research, both in toxicologic pathology and in medical devices work, including as possible organ donors for humans. This course will review the various strains of pigs used for biomedical research, their unique anatomy, clinical pathology, and background diseases and lesions. In addition to general toxicology, the use of pigs in dermatologic, ocular, and device work will be reviewed by subject matter experts.

1:30 PM–1:55 PM

Emergence of the Miniature Swine in Biomedical Research: Do Different Breeds Support Different Needs?

Guy Bouchard, DVM, MS, DACT, Sinclair Research Center, LLC, Columbia, MO

1:55 PM–2:20 PM

Background and Unique Considerations: Anatomic Pathology

Kristie Mozzachio, DVM, DACVP, WIL Research, Hillsborough, NC; and Gregory S. Travlos, DVM, National Institute of Environmental Health Sciences, Research Triangle Park, NC

Job Searching 2.0: Using Social Media and Connections to Find Your Right Job

Chair: Heather Jury, IDEXX Laboratories, Westbrook, ME

This interactive session is designed to help attendees get an insider view of job seeking, networking, and strategies to identify the right position and create their career path. Attendees at this session will have the opportunity to learn about "Job Searching 2.0," ask questions and hear candid advice. This program will review definitions of new media/social media, and discuss: what is social media now? How has social media changed the landscape of job searching and networking? Who is using social media to find employees? How do recruiters see you? Why is networking and connecting a critical part of job searching today?

There will be in-depth discussion about the social networking "Big Three": Facebook, Twitter, and LinkedIn, plus a review of other sites including Instagram, Indeed, Glassdoor, and more. This program will include a discussion about social strategies, privacy settings, etiquette in this new era, as well as tips and "hacks" for effective job seeking. Participants will leave with actions to take now and later to successfully identify their career path.

Visualizing Pathology Data

Co-Chairs: Danielle L. Brown, DVM, DACVP, WIL Research, Hillsborough, NC; and Nancy E. Everds, DVM, DACVP, Amgen, Inc., South San Francisco, CA

The assessment of quantitative and qualitative pathology data can be challenging. Large data sets can be cumbersome, and even quantitative data can be subject to bias. The goal of this session is to provide attendees with tips and tools for quickly managing quantitative and semi-quantitative data sets as well as best practices for study design, data analysis, and presentation. Topics of discussion include general tips and tricks for visualizing numerical data from quantitative studies, a discussion on the pitfalls and biases of image analysis and how to avoid them, advice on how to manage non-pathology data sets such as those resulting from “omics” studies and how to integrate those results with pathology data for toxicology studies, how to approach and apply semiquantitative scoring systems in a research or clinical setting, and how to approach mining of large databases for case series or epidemiologic studies.

Concurrent Session I

8:00 AM–12:00 Noon Room 101J

Diagnostic Veterinary Dermatopathology

Co-Chairs: Pauline M. Rakich, DVM, PhD, DACVP, University of Georgia, Athens, GA; and Joanne Mansell, DVM, MRCVS, DACVP, Texas A&M University, College Station, TX

8:00 AM–8:10 AM

Welcome

Pauline M. Rakich, DVM, PhD, DACVP, University of Georgia, Athens, GA; and Joanne Mansell, DVM, MRCVS, DACVP, Texas A&M University, College Station, TX

8:10 AM–9:00 AM

Interface Dermatitis

Verena K. Affolter, DrMedVet, PhD, DECV, University of California, Davis, CA

9:00 AM–9:50 AM

Interface Dermatitis: The Immunologic and Clinical Perspective

Valerie A. Fadok, DVM, PhD, DACVD, North Houston Veterinary Specialists, Spring, TX

9:50 AM–10:20 AM

Refreshment Break

Exhibit Hall B

10:20 AM–11:10 AM

The Hair Follicle and the Yet Unsolved Mystery of Non-inflammatory Alopecia

Monika Welle, Prof DrMedVet, DECV, University of Bern, Bern, Switzerland

11:10 AM–12:00 Noon

Diagnostic Dermatopathology for General Veterinary Pathologists

Elizabeth A. Mauldin, DVM, DACVD, DACVP, University of Pennsylvania, Philadelphia, PA

Natural Disease Focused Scientific Session I

8:00 AM–12:00 Noon Room 101F

Chair: Andrew D. Miller, DVM, DACVP, Cornell University, Ithaca, NY

Committee Members: G. Haldorson (Co-Chair), D.R. Rissi, I. Langohr (Past Chair), F. Uzal, and A. Pillatzki

Platform Presentations

8:00 AM–8:15 AM

Felis catus Papillomavirus Type 2 Oncogene Expression in Feline Cutaneous Squamous Cell Carcinomas

N.A. Thomson, J.S. Munday, and K.E. Dittmer
Keyword: Neoplasia

8:15 AM–8:30 AM

Preferential Usage of a Single Immunoglobulin Heavy Chain Variable Gene in Boxers with Chronic Lymphocytic Leukemia

E.D. Rout, R.C. Burnett, S.A. George, C.R. Abbott, J.A. Yashimoto, and A.C. Avery
Keyword: Neoplasia

8:30 AM–8:45 AM

Identification of MicroRNA-Based Predictive Signature for Prognosis in Canine Osteosarcoma

D.D. Dailey, A.M. Hess, J.S. Fowles, G.J. Bouma, and D.L. Duval
Keyword: Neoplasia

8:45 AM–9:00 AM

Immunophenotypic and Histomorphologic Characterization of 15 Caprine Lymphomas

P.K. Kiser and C.V. Löhr
Keyword: Neoplasia

9:00 AM–9:15 AM

Map My Mad Cow: Investigating the Patterns of Disease-Associated Prion Protein in the Brains of Cattle with Bovine Spongiform Encephalopathy

S.J. Moore, M. Arnold, Y. Spencer, J. Bradshaw, P. Webb, K. Beck, A. Davis, G.A.H. Wells, and M. Simmons
Keyword: Nervous System

Invited Speaker

9:15 AM–10:00 AM

Pathology of Adverse Reactions to Vaccines

Donal O'Toole, MVB, PhD, MRCVS, DECV, FRCPath, Wyoming State Veterinary Laboratory, Laramie, WY
Keyword: Immunology

10:00 AM–10:30 AM

Refreshment Break

Exhibit Hall B

Natural Disease Focused Scientific Poster Session Exhibit Hall B

Platform Presentations

10:30 AM–10:45 AM

Pathology As a Puzzle Piece: Diagnostic Findings in a Large-Scale Mortality Event Involving Cassin's Auklets (*Ptychoramphus aleuticus*) in 2014–2015

J. Beck, R.J. Bildfell, J.D. Burco, M. Flannery, C.M. Gobble, J.S. Lankton, and B.L. Bodenstein
Keyword: Wildlife

10:45 AM–11:00 AM

Clinicopathological Findings and Virus Antigen Distribution during Natural Infection of Ring-Necked Pheasants in Washington State, USA with Highly Pathogenic Avian Influenza Virus A (H5N2)

D.K. Ajithdoss, M.K. Torchetti, L. Badcoe, D.S. Bradway, and T.V. Baszler
Keyword: Infectious Disease

Sunday

11:00 AM–11:15 AM

Immunohistochemical Characterization of Spontaneous Intestinal Neoplasms in Zebrafish (*Danio rerio*)

C.E. Paquette, M.L. Kent, T.S. Peterson, R. Wang, R.H. Dashwood, and C.V. Löhr

Keyword: Neoplasia

11:15 AM–11:30 AM

Chlamydiosis in Farmed Alligators (*Alligator mississippiensis*) in Louisiana

K. Sakaguchi, J. Nevarez, D. Paulsen, I. Langohr, R. Bauer, N. Crossland, J. Ferracone, B. Ritchie, and F. Del Piero

Keyword: Infectious Disease

11:30 AM–11:45 AM

Identifying Mechanisms of Viral Persistence and Cellular Transformation in Polyomavirus Using Primary Cell Cultures in a Naturally Occurring Disease System

M.E. Church, P.A. Pesavento, and K.D. Woolard

Keyword: Neoplasia

11:45 AM–12:00 Noon

Aerocystitis – A Review

J. Dill and A. Camus

Keyword: Wildlife

STP and Industrial and Toxicologic Pathology Focused Scientific Session

8:00 AM–12:00 Noon **Room 101E**

Chair: Daniela Ennulat, DVM, PhD, DACVP, GlaxoSmithKline, King of Prussia, PA

Committee Members: T. Crabbs (Co-Chair), M. Conner (Past-Chair), C. Colleton, K. Helke, K. Knostman, J. Kyathanahalli, and G. Palanisamy

Invited Speaker

8:00 AM–8:30 AM

Methodological Advancements in the Mammary Gland: New Insights for Detecting Mammary Carcinogenesis

Suzanne E. Fenton, PhD, MS, NTP Laboratory, NIEHS, Research Triangle Park, NC

Supported by Covance Laboratories

Platform Presentations

8:30 AM–8:45 AM

STAT3 Modulates Chloride Channel Accessory Protein Expression during Mammary Involution: A Perturbed Relationship during Tumorigenesis

K. Hughes

Keyword: Neoplasia

8:45 AM–9:00 AM

Epigenetic Down-Regulation of SAMHD1 Expression in Cutaneous T Cell Lymphoma

R. Kohnken

Keyword: Neoplasia

9:00 AM–9:15 AM

Innate Lymphoid Cells Mediate Ozone-Induced Type 2 Immunity in the Lungs of Mice

K. Kumagai

Keyword: Respiratory System

9:15 AM–9:30 AM

Exposures to Carbon Nanotubes and Asbestos Induce Related but Distinct Profiles of Toxicologic Lung Pathology

E. Frank

Keyword: Respiratory System

9:30 AM–9:45 AM

Morphine Disrupts Gut Homeostasis and Induces Distinct Signatures of Gut Microbiome and Metabolome Partially through the Toll-Like Receptor 2 Pathway

F. Wang

Keyword: Industrial and Toxicologic Pathology

9:45 AM–10:00 AM

Imaging Mass Spectrometry: Visualizing Biology and Chemistry in Drug Development

R. Groseclose

Keyword: Industrial and Toxicologic Pathology

10:00 AM–10:30 AM

Refreshment Break

Exhibit Hall B

STP and Industrial and Toxicologic Pathology Focused Scientific Poster Session

Exhibit Hall B

Invited Speaker

10:30 AM–11:30 AM

Building Successful Partnerships for Translational Research

Jaime Modiano, VMD, PhD, University of Minnesota, Minneapolis, MN

Keyword: Skin

Supported by Robert Hall

Platform Presentation

11:30 AM–12:00 Noon

A Systems Approach to Integrate Animal Models Data for Neurodegenerative Disease

C.J. Zeiss

Keyword: Nervous System

Program

ACVP | ASVCP | STP
Combined Annual Meeting | October 17–21, 2015

Minneapolis, Minnesota

Minneapolis Convention Center

8:00 AM–5:00 PM	Guest/Hospitality Suite Skyway Suite B, Hyatt Regency Hotel
9:00 AM–5:00 PM	Career Center Room 206B
9:30 AM–4:30 PM	Exhibits and Silent Auction Exhibit Hall B
9:30 AM–4:30 PM	Focused Scientific Poster Session and ACVP Veterinary Student Posters Exhibit Hall B
12:00 Noon–1:30 PM	Veterinary Pathology Resident/Trainee Luncheon <i>Sponsored by IDEXX</i> Room 102D

ASVCP Veterinary Laboratory Professionals Session I

12:00 Noon–4:00 PM	Room 200E <i>Chair: Lynne Shanahan, MT, ASCP, Colorado State University, Ft. Collins, CO</i>
12:00 Noon–12:30 PM	Welcome <i>Lynne Shanahan, MT, ASCP, Colorado State University, Ft. Collins, CO</i>
12:30 PM–1:30 PM	Advances in Veterinary Diagnostic and Comparative Hemostatic Testing <i>Marjory Brooks, DVM, DACVIM, Cornell University, Ithaca, NY</i>
1:30 PM–2:30 PM	Establishing Reference Intervals <i>Kristen R. Friedrichs, DVM, DACVP, University of Wisconsin, Madison, WI</i>
2:30 PM–3:00 PM	Refreshment Break
	Exhibit Hall B
3:00 PM–4:00 PM	Sample Handling and Sources of Pre-analytical Variation in Laboratory Animals <i>Kirstin Barnhart, DVM, PhD, DACVP, AbbVie, Inc., North Chicago, IL</i>

Emerging Disease Focused Seminar

12:15 PM–1:15 PM	Room 101A Corona Virus <i>Chair: Francisco A. Uzal, DVM, MSc, PhD, DACVP, University of California, Davis, CA</i>
------------------	---

12:15 AM–12:45 PM	Emergence of Porcine Enteric Corona Viruses in North America: Differential Features and Diagnostic Trends <i>Eric R. Burroughs, DVM, PhD, Iowa State University, Ames, IA</i>
12:45 AM–1:15 PM	Pathogenesis and Histopathology of Porcine Epidemic Diarrhea Virus (PEDV) and Porcine Delta Corona Virus (PDCV) in Swine <i>Jeff Hayes, DVM, MSc, Ohio Department of Agriculture Animal Disease Diagnostic Laboratory, Reynoldsburg, OH</i>

Clinical Pathology Focused Scientific Session I

1:30 PM–4:30 PM	Room 101E <i>Chair: Shelley Burton, DVM, MSc, DACVP, University of Prince Edward Island, Charlottetown, Prince Edward Island, Canada</i> <i>Committee Members: E. Behling-Kelly, S. Connolly, N. Tripathi, C. Wagg, and V. Wong</i>
	Invited Speaker 1:30 PM–2:30 PM Urinalysis—Getting Specific about Specific Gravity and Other Important Features <i>Jody Lulich, DVM, PhD, DACVIM, University of Minnesota, St. Paul, MN</i>
	Platform Presentations 2:30 PM–2:45 PM Application of Current Automated Microscopy Technology to Qualitative Identification of Urine Formed Elements in Veterinary Medicine <i>J. Hammond, C. Myrick, D.J. McCrann, M. Scott, G. Bilbrough, and D.B. DeNicola</i> Keyword: Clinical Pathology 2:45 PM–3:00 PM Cytologic Grading of Copper in Canine Liver Samples <i>A.R. Moore, E. Coffey, and D. Hamar</i> Keyword: Liver 3:00 PM–3:30 PM Refreshment Break Exhibit Hall B
	Platform Presentations 3:30 PM–3:45 PM Increased Frequency of CD45 Negative (T Zone) Cells in Older Golden Retrievers <i>K. Hughes*, J. Bromberek, and A. Avery</i> Keyword: Hematopoietic System

Sunday

3:45 PM–4:00 PM

Acute Myeloid Leukemia is Associated with a Poorer Prognosis than Acute Undifferentiated Leukemia and Acute Lymphoblastic Leukemia in the Dog

M. Guzera*, T.L. Williams, M. Aquino Cleto, L.G. Moreno Perez, D. Ippolito, J. Lowe, C. Leo, G. Polton, and J. Archer
Keyword: Hematopoietic System

4:00 PM–4:15 PM

Diagnostic Performance and Agreement of Two White Blood Cell (WBC) Estimate Formulas Compared to Automated WBC Counts

L. Black*, N. Stacy, and J. Hernandez
Keyword: Hematology

4:15 PM–4:30 PM

Hematology and Biochemistry of Aging: Evidence for “Anemia of the Elderly” in Old Dogs

L.B. Radakovich*, S.C. Pannone, M.P. Truelove, C.S. Olver, and K.S. Santangelo
Keyword: Hematology

*Competitor for the ASVCP Young Investigator Award

Diagnostic Pathology Focused Scientific Session I

1:30 PM–5:00 PM

Room 200A

Chair: Stephen Raverty, DVM, PhD, DACVP, British Columbia Ministry of Agriculture and Lands, Abbotsford, British Columbia, Canada

Committee Members: E. Burroughs, B. Lewis (Past-Chair), L. Kennedy, A. Rodrigues Hoffman, F. Oliveira, and D. Rotstein (Co-Chair)

Supported by Antech Diagnostics

1:30 PM–1:40 PM

Introductions and Announcements

Platform Presentations

1:40 PM–1:50 PM

Liver and Spleen Light Chain Deposition Disease in a Dog

H.L. Pecoraro†, S.P. McDonogh, S.A. Center, S.M. Liu, and K. Gisselman
Keyword: General Topic

1:50 PM–2:00 PM

Spontaneous Pulmonary Hyalinosis in Three Sugar Gliders (*Petaurus breviceps*)

S.A. Sokol†, T.L. Southard, and A.D. Miller
Keyword: Respiratory System

2:00 PM–2:10 PM

Enterocolic Ganglioneuritis Causing Progressive Obstipation in a Dog

M.T. O'Brien†, J. Lidbury, M. Landry, A. Gessner, and A. Rodrigues-Hoffman
Keyword: Alimentary

2:10 PM–2:20 PM

Suspected Fenbendazole Toxicity in an American White Pelican (*Pelecanus erythrorhynchos*)

I.J. Kim†, J.C. Nietfeld, D.M. Lindemann, and D. Eshar
Keyword: Avian

2:20 PM–2:30 PM

Starlings (*Sturnus vulgaris*) with Severe Osteomyelitis and Osteonecrosis; An Unusual Presentation of Yersinia Pseudotuberculosis

I. Phillips† and R. Bildfell
Keyword: Infectious Disease

2:30 PM–2:40 PM

Concurrent Ocular T Cell Lymphoma with Lineage Infidelity and Histiocytic Sarcoma with B Cell Receptor IGH Gene Clonality in a Cat (*Felis catus*)

K. Barnes†, M. Kiupel, J. Stiles, M. Operacz, and D. Sledge
Keyword: Neoplasia

2:40 PM–2:50 PM

Acanthomatous Ameloblastoma with Atypical Foci in Five Dogs

J. Malmberg†, B. Powers, and P. Schaffer
Keyword: General Topic

2:50 PM–3:00 PM

Hypertrophic Osteopathy in a Dog with Disseminated Histiocytic Sarcoma

S. Choudhary†, G. Andrews, D.S. Biller, S. Hocker, and J. Ryseff
Keyword: Neoplasia

3:00 PM–3:30 PM

Refreshment Break

Exhibit Hall B

Diagnostic Pathology Focused Scientific Poster Session

Exhibit Hall B

Platform Presentations

3:30 PM–3:40 PM

A Rubric for Evaluating Processing Artifacts in Histologic Specimens with Inked Margins

P.K. Kiser†, M. Milovancev, C.V. Löhr, and D.S. Russell
Keyword: General Topic

3:40 PM–3:50 PM

Systemic Ranaviral Infection in an African Spurred (*Centrochelys sulcata*) Tortoise

G. Krane†, N. Steckler, C. Cummins, T. Waltzek, J. Wellehan, and L. Farina
Keyword: Wildlife

3:50 PM–4:00 PM

Adult-Onset, Cyclic Thrombocytopenia in a Rhesus Macaque

G. Frydman†, K. Pate, R.P. Marini, A.M. de Laforcade, I. Bosch, S. Muthupalani, A.G. Swennes, and J.G. Fox
Keyword: Hematology

Program

ACVP | ASVCP | STP
Combined Annual Meeting | October 17–21, 2015

Minneapolis, Minnesota

Minneapolis Convention Center

Sunday

4:00 PM–4:10 PM

Confirmation of Fibrodysplasia Ossificans Progressiva in a Domestic Shorthair Kitten by Detection of the R206H Mutation in the Activin Receptor 1A/Activin-Like Kinase-2 (ACVR1/ALK2) Gene

M. Viesont[†], E.M. Shore, M. Xu, and G.K. Saunders
Keyword: Bone and Joint

4:10 PM–4:20 PM

The Pathology of Tyzzer's Disease in Horses

K. Fresneda[†], F. Carvallo, and F. Uzal
Keyword: Infectious Disease

4:20 PM–4:30 PM

Intracoeleomic Neoplasia in a Crowntail Siamese Fighting Fish (*Betta splendens*)

K. Eden[†], J.F. Edwards, D.P. Sponenberg, and B.F. Porter
Keyword: Neoplasia

4:30 PM–4:40 PM

Definitive Diagnosis and Therapeutic Options for Dogs with Cancer Using an Automated Multiplexed Gene Signature Assay on Formalin-Fixed Paraffin-Embedded (FFPE) Tumors

B. Davis, M. Schwarz, and G. Post
Keyword: Neoplasia

4:40 PM–4:50 PM

Barbiturate Exposure in Horse Meat Fed in a Large Animal Sanctuary

A. Rink, R. Poppenga, G. Sykes, C. Le, D. Krieger, and D. Rotstein
Keyword: General Topic

4:50 PM–5:00 PM

Primary Leptomenigeal Gliomatosis in a Domestic Shorthair Cat

W.M. Zoll[†], J.M. Rudnick, T. Keeshen, C. Bandt, A.D. Miller, and J.R. Abbott
Keyword: Nervous System

[†]Competitor for the ACVP/AAVLD Diagnostic Pathology Travel Award

Experimental Disease Focused Scientific Session I

1:30 PM–5:00 PM

Room 101F

Chair: Sébastien Monette, DMV, MVSc, DACVP, Memorial Sloan Kettering Cancer Center, New York, NY

Committee Members: H. Adissu, O. Foreman, M. Gagea, S. Gumber, L. Janke (Co-Chair), B.L. Plattner (Past Chair), and R. Read

Invited Speaker

1:30 PM–2:30 PM

A Pig Model of Renovascular Disease: Development and Evaluation

Lilach Lerman, MD, PhD, Mayo Clinic, Rochester, MN

Platform Presentations

2:30 PM–2:45 PM

Cardiovascular Pathology in a Mouse Model of Mucopolysaccharidosis Type I (Hurler Syndrome): Longitudinal Echocardiographic Evaluation and Correlative Histopathology

D.S. Bangari, J. Marshall, J. Johnson, J.B. Nietupski, J. Cao, C. Maloney, E. Roberts, P. Piepenhagen, X. Ying, K.M. Keeling, D.M. Bedwell, S.H. Cheng, and B.L. Thurberg
Keyword: Cardiovascular

2:45 PM–3:00 PM

Loss of NLRX1 Results in Increased Intestinal Pathology and Exacerbated T Cell Responses in Mice with Inflammatory Bowel Disease

K. Eden, R. Hontecillas, M. Viladomiu, C. Philipson, A. Carbo, A. Leber, N. Philipson, I. Tattoli, S.E. Girardin, I.C. Allen, and J. Bassaganya-Riera
Keyword: Alimentary

3:00 PM–3:30 PM

Refreshment Break

Invited Speaker

3:30 PM–4:15 PM

Comparative Biology of Breast Cancer: Lessons from Human and Nonhuman Primates, Rodents, and Other Species

J. Mark Cline, DVM, PhD, DACVP, Wake Forest University, Winston-Salem, NC

Platform Presentations

4:15 PM–4:30 PM

Genome Wide Identification of Susceptibility Loci for Malignant Phenotypes in Pulmonary Adenocarcinoma

E.F. Edmondson, D.M. Gatti, C.M. Fallgren, R.R. Rampersad, and M.M. Weil
Keyword: Neoplasia

4:30 PM–4:45 PM

Modulation of Cell Death Pathways by RIP Kinase 1

J.D. Webster, K. Newton, K. Wickliffe, A. Maltzman, D. Dugger, M. Solon, and V.M. Dixit
Keyword: Other (Cell Death)

4:45 PM–5:00 PM

Pathogenic Role and Regulation of Galectin-3 Expression in Renal Fibrosis and TGF-BETA-1-Induced Fibrogenesis

V. Juniantito, T. Izawa, M. Kuwamura, B.P. Priosoeryanto, E. Harlina, and J. Yamate
Keyword: Toxicologic Pathology

Natural Disease Focused Scientific Session II

1:30 PM–5:00 PM

Room 101A

Chair: Andrew D. Miller, DVM, DACVP, Cornell University, Ithaca, NY

Committee Members: G. Haldorson (Co-Chair), D.R. Rissi, I. Langohr (Past Chair), F. Uzal, and A. Pillatzki

Platform Presentations

1:30 PM–1:45 PM

Expanding the Spectrum of Glomerular Basement Membrane Lesions

E.S. Clark and R. Cianciolo

Keyword: Urinary System

1:45 PM–2:00 PM

Novel Immunotherapeutics in Canine Cancer: Manipulating the Immunology to Alter the Pathology

K. Elliott, P.J. Macpherson, J. Alawneh, C. Palmieri, G. Simmons, M.M. Brennan, L. Setyo, C. Weir, A.M. Fahrer, and R.E. Allavena

Keyword: Neoplasia

2:00 PM–2:15 PM

Histopathologic Findings of Spontaneous Hypertensive Encephalopathy in Cats

B.J. Turek and A.C. Durham

Keyword: Nervous System

Invited Speaker

2:15 PM–3:00 PM

Diagnostic Approach to Spontaneous Neuropathic Lysosomal Storage Diseases of Dogs and Cats

Carlo Cantile, DVM, PhD, Università di Pisa, Pisa, Italy

3:00 PM–3:30 PM

Refreshment Break

Invited Speaker

4:15 PM–5:00 PM

The Structural and Molecular Pathology, Chemistry, and Current Diagnostic Techniques of Toxic Plant Induced Disease

Bryan Stegelmeier, DVM, PhD, DACVP, USDA/ARS Poisonous Plant Research Laboratory, Logan, UT

STP Focused Topic Scientific Session 1

1:30 PM–5:00 PM

Room 101J

Functional Anatomy and Physiology of Skin

Co-Chairs: Kelly Diegel, DVM, PhD, DACVP, Boehringer Ingelheim, Ridgefield, CT; and Aaron M. Sargeant, DVM, PhD, DACVP, Charles River Laboratories Preclinical Services, Spencerville, OH

This session will provide an overview of skin immunology and comparative and functional anatomy with emphasis on aspects important to toxicologic assessment. The pros and cons of different species will be discussed, including the use of hairless rodent models and models of human disease being used in discovery work to screen compounds for efficacy endpoints. Pitfalls and concerns of study design, especially with regards to rodent versus pig, will be covered. Finally, formulation and pharmacokinetic endpoints will be discussed, including the challenges of delivering a drug to a specific component of the skin, and issues surrounding 1) developing a formulation that will target a specific area, 2) measuring concentrations in different areas without cross contamination, and 3) appropriate endpoints for high throughput screening of compounds *in vitro* and how these endpoints translate *in vivo*.

1:30 PM–2:15 PM

Skin Deep: The Thick, the Thin, and the Therapeutic Target

Lydia Andrews-Jones, DVM, PhD, DACVP, Allergan, Lake Forest, CA

2:15 PM–3:05 PM

Dermal Drug Development and Delivery to the Skin

Jon Lenn, MS, PhD, GlaxoSmithKline, Research Triangle Park, NC

Core and Specialized Skill Sets for Veterinary Pathologists: An Interactive Town Hall Meeting on Future Needs

The practice of veterinary pathology and interactions with related disciplines continue to evolve. It is essential for training programs and those who mentor future pathologists to be aware of the shifting needs of various employment sectors. Undoubtedly, there are common requisite skill sets for trainees to develop to be successful as pathologists. However, specialized skill sets necessary to be successful in various sectors, such as academia, industry, and government, may not be common across all segments. Therefore, it is important to identify these differential needs and incorporate the respective learning opportunities into training programs. In addition to core pathology expertise, it is recognized that emotional intelligence, including soft skills like writing and presenting, and having a collaborative spirit are equally important. Consequently, an open forum for discussion will take place during the Town Hall Meeting to help more fully understand the perceived core and specialized needs for the next generation of pathologists. Active audience participation, including mentors and trainees, will be paramount to ensuring the opinions of the ACVP, STP, and ASVCP memberships are captured. A white paper summarizing the discussion points will be published, which will help drive future discussions on pathology training.

ACVP-STP Mystery Slide Review Session: Skin

7:30 PM-9:30 PM

Room 102A

Chair: Daniel R. Rissi, DVM, PhD, DACVP, University of Georgia, Athens, GA

Panelists: Dimitry M. Danilenko, DVM, PhD, DACVP, Genentech, Inc., South San Francisco, CA; Kelly Diegel, DVM, PhD, DACVP, Boehringer Ingelheim, Ridgefield, CT; Robert W. Dunstan, DVM, MS, DACVP, Biogen Idec, Cambridge, MA; Joanne Mansell, DVM, MRCVS, DACVP, Texas A&M University, College Station, TX; Elizabeth A. Mauldin, DVM, DACVD, DACVP, University of Pennsylvania, Philadelphia, PA; Kim Newkirk, DVM, PhD, DACVP, University of Tennessee, Knoxville, TN

ACVP/ASVCP/STP Combined Plenary Session: Biomarkers

8:00 AM–12:00 Noon **Main Auditorium**

Co-Chairs: Robert W. Dunstan, DVM, MS, DACVP, Biogen Idec, Cambridge, MA; Elizabeth Howerth, DMV, PhD, DACVP, University of Georgia, Athens, GA; and Anne Provencher, DVM, MSc, DECVP, FIATP, DACVP, Charles River Laboratories, Sherbrooke, Quebec, Canada

For over a decade, the pursuit of biomarkers to diagnose and prognose disease and, more importantly, to predict which patients will respond to targeted therapies, has been a major goal of both FDA and the pharmaceutical industry. However, only a handful of biomarkers have been approved by the Agency. In this session, there will be a discussion of what biomarkers are, the types of biomarkers that are currently being developed, and what it takes to validate them for regulatory approval.

8:00 AM–8:50 AM

Biomarkers: You May Remember Them As...

Michael Bleavins, PhD, DABT, White Crow Innovation, LLC, Dexter, MI

8:50 AM–9:40 AM

Pathology and Mechanisms of Skin Injury

Co-Chairs: Dimitry M. Danilenko, DVM, PhD, DACVP, Genentech, Inc., South San Francisco, CA; and Sebastian Brennan, DVM, MVSc, DACVP, Novartis Pharmaceuticals Corporation, East Hanover, NJ

The skin, like other organ systems, has a relatively limited range of responses to injury regardless of the specific mechanism underlying the insult. Despite this, there is still a great deal that can be ascertained from the different morphologic, physiologic, and molecular alterations that arise in response to injury. One of the skin's primary functions is to serve as a physical and physiologic protective barrier against injury from the external environment in order to prevent the loss of water and solutes from the body. When the skin is exposed to irritants that disrupt this barrier, it mounts an inflammatory and proliferative response in an effort to restore these essential functions. The epidermis, particularly epidermal keratinocytes and dendritic cells, are central to the initiation of the skin's response, triggering an immunologic cascade tailored to cope with a wide range of injurious stimuli and leading to the stereotypic morphologic responses that we encounter as pathologists.

This session will cover the pathology and mechanisms of cutaneous injury, beginning with an overview of our current understanding of immune-mediated mechanisms, both the adaptive and innate that underlie the pathogenesis of cutaneous injury. Following this introduction, we will present relevant applications for utilization of the delayed-type hypersensitivity response in nonclinical studies that support biotherapeutic drug development programs in cynomolgus monkeys, followed by a

presentation on the cutaneous phototoxicity pathologic changes caused by two phototoxins and the relationship of these findings with clinical observations. The final presentation will discuss exciting new data on how UV-induced chemical reactions can excite electrons to high energies and the importance of this process in cutaneous malignant melanoma and in other diseases.

Helpful Advice or Disparaging Critic? Your Role as a Peer Reviewer for Manuscripts in Toxicologic Pathology and Veterinary Pathology

12:00 Noon–2:00 PM

Room 208A-D

Co-Chairs: Susan A. Elmore, MS, DVM, DABT, FIATP, DACVP, NTP and NIEHS, Research Triangle Park, NC; and Jeff Caswell, DVM, DVSc, PhD, DACVP, University of Guelph, Guelph, Ontario, Canada

This seminar will be presented by the Editor-in-Chief of *Toxicologic Pathology*, Dr. Susan A. Elmore and the Editor-in-Chief of *Veterinary Pathology*, Dr. Jeff Caswell.

Currently, no formal or standardized training for peer reviewers exists; this seminar will attempt to fill that gap by providing a series of practical tips on how to review a manuscript. Helpful advice will be provided for both novice and seasoned reviewers.

Models of Skin Disease

Co-Chairs: Robert W. Dunstan, DVM, MS, DACVP, Biogen Idec, Cambridge, MA; and Elizabeth A. Mauldin, DVM, DACVD, DACVP, University of Pennsylvania, Philadelphia, PA

The objective of this session will be to describe the diversity of animal models available to investigate skin diseases. A secondary goal will be to provide a session that will be of interest to both STP and ACVP attendees. This will start with a discussion of *in vitro* models followed by presentations on the epidermis, the hair follicle, and the dermis. At the end, the attendees should have a better understanding of both dermatopathology and diseases affecting the major structural complements of the skin.

Select Emerging, Infectious, and Poorly Understood Disease Entities of Reptiles

Mike Garner, DVM, DACVP, Northwest ZooPath, Monroe, WA

8:45 AM–9:15 AM

Selected Topics in Avian Pathology

Nancy Stedman, DVM, PhD, Busch Gardens/SeaWorld Parks and Entertainment, Tampa, FL

9:15 AM–9:40 AM

Selected Topics in Small Mammal Pathology

Rita McManamon, DVM, University of Georgia, Athens, GA

9:40 AM–10:10 AM

Refreshment Break

Exhibit Hall B Foyer

10:10 AM–10:55 AM

Current/Selected Topics in Wildlife Pathology

Valerie Shearn-Bochsler, DVM, MPH, USGS National Wildlife Health Center, Madison, WI

10:55 AM–11:40 AM

Emerging Zoonotic Diseases: Critical Role of Pathology in Identification and Discovery

Sherif Zaki, MD, PhD, National Center for Emerging and Zoonotic Diseases, Centers for Disease Control and Prevention, Atlanta, GA

11:40 AM–12:00 Noon

Questions and Discussion

Concurrent Session IV

8:00 AM–12:00 Noon **Room 101E**

Flow Cytometry and Clonality Assays in Diagnostic Hematopathology

Co-Chairs: Dorothee Bienzle, DVM, PhD, DACVP, University of Guelph, Guelph, Ontario, Canada; and Mary Jo Burkhard, DVM, PhD, DACVP, Ohio State University, Columbus, OH

8:00 AM–8:05 AM

Introduction

Dorothee Bienzle, DVM, PhD, DACVP, University of Guelph, Guelph, Ontario, Canada; and Mary Jo Burkhard, DVM, PhD, DACVP, Ohio State University, Columbus, OH

8:05 AM–8:50 AM

Principles of Flow Cytometry of Human Non-Hodgkin Lymphoma and Applications to Comparative Pathology

Michael Linden, MD, PhD, DABP, University of Minnesota, Minneapolis, MN

8:50 AM–9:20 AM

Concepts and Conundrums of Clinical Flow Cytometry

Mary Jo Burkhard, DVM, PhD, DACVP, Ohio State University, Columbus, OH

9:20 AM–9:50 AM

Principles, Potential, and Pitfalls of Clonality Testing

Stefan M. Keller, DVM, DrMedVet, PhD, DECVP, University of Guelph, Guelph, Ontario, Canada

9:50 AM–10:10 AM

Current Status of Proficiency Testing and Consensus Effort

Dorothee Bienzle, DVM, PhD, DACVP, University of Guelph, Guelph, Ontario, Canada

10:10 AM–10:25 AM

Refreshment Break

Exhibit Hall B Foyer

Program

ACVP | ASVCP | STP
Combined Annual Meeting | October 17–21, 2015

Minneapolis, Minnesota

Minneapolis Convention Center

10:25 AM–12:00 Noon

Flow Cytometry and Clonality Cases to Demonstrate Diagnostic Challenges and Rewards

Melinda Wilkerson, DVM, PhD, DACVP, Kansas State University, Manhattan, KS; Stefan M. Keller, DVM, DrMedVet, PhD, DECV, University of Guelph, Guelph, Ontario, Canada; Dorothee Bienze, DVM, PhD, DACVP, University of Guelph, Guelph, Ontario, Canada; Tracy Stokol, BVSc, PhD, DACVP, Cornell University, Ithaca, NY; and Mary Jo Burkhard, DVM, PhD, DACVP, Ohio State University, Columbus, OH

Mini-Symposium II

8:00 AM–12:00 Noon

Room 101A

Medical Device Pathology

Co-Chairs: Laura E. Leigh Perkins, DVM, PhD, DACVP, Abbott Vascular, Mattaponi, VA; and Marian K. Rippey, DVM, PhD, DACVP, Rippey Pathology Solutions, Inc., Woodbury, MN

8:00 AM–8:15 AM

Welcome to the World of Cardiovascular Medical Devices

Laura E. Leigh Perkins, DVM, PhD, DACVP, Abbott Vascular, Mattaponi, VA

8:15 AM–8:50 AM

Handling, Processing, and Evaluation of Medical Devices

Serge D. Rousselle, DVM, DACVP, Alizée Pathology, LLC, Thurmont, MD

8:50 AM–9:25 AM

Medical Device Regulatory Considerations and Biocompatibility

Victoria Hampshire, VMD, Capital Preclinical Scientific Regulatory Consulting, LLC, Bethesda, MD

9:25 AM–10:00 AM

Medical Device Imaging and the Pathologist

Amit Vasanji, PhD, Image IQ, Inc., Cleveland, OH

10:00 AM–10:20 AM

Refreshment Break

Exhibit Hall B Foyer

10:20 AM–10:50 AM

Cardiovascular and Combination Devices

Marian K. Rippey, DVM, PhD, DACVP, Rippey Pathology Solutions, Inc., Woodbury, MN

10:50 AM–11:10 AM

Morphologic Evaluation of Nervous System Devices

Mark T. Butt, DVM, DACVP, Tox Path Specialists, LLC, Frederick, MD

11:10 AM–11:30 AM

Preparation and Analysis of Orthopedic Implanted Devices

Madeline Chagnon, DVM, MSc, AccelLAB, Boisbriand, Quebec, Canada

11:30 AM–11:50 AM

Staying in the Game: Evaluation of Safety and Efficacy of Orthopedic Devices

Joan Wicks, DVM, PhD, DACVP, Alizée Pathology, LLC, Thurmont, MD

11:50 AM–12:00 Noon

Questions and Discussion

STP Focused Topic Scientific Session 4

8:00 AM–12:00 Noon

Room 101J

Case Studies of Cutaneous Toxicity, Direct and Systemic

Co-Chairs: Zbigniew Wojcinski, DVM, DVSc, DABT, DACVP, Drug Development Preclinical Services, LLC, Ann Arbor, MI; and Duane Belote, DVM, DACVP, Covance Laboratories, Inc., Chantilly, VA

During development of compounds intended to treat skin diseases, manifestations of cutaneous toxicity may occur after topical application or systemic administration. Many factors, including selection of the appropriate animal model and parameters for evaluation, must be taken into consideration in designing nonclinical safety strategies to support initiation of clinical trials with potential therapeutic compounds.

This session will cover the unique challenges of drug development of compounds intended to treat dermal disease conditions from technical and pathology perspectives. The first presentation will provide an overview of the numerous factors that can influence the conduct of dermal toxicity studies and subsequent interpretation of findings. Subsequent presentations in this session will include the use of pigs in toxicity testing with respect to the influence of differences in metabolism and background findings; a review of a systematic approach to assessing adverse drug reactions manifested as cutaneous drug eruptions in non-human primates; and a case study of drug-induced cutaneous toxicity in cynomolgus monkeys including strategies for investigation of the mechanism of toxicity.

8:00 AM–8:50 AM

Pragmatic Issues in Dermal Toxicity Studies: Expected and Unexpected

Christine L. Merrill, DVM, PhD, DACVP, GlaxoSmithKline, Research Triangle Park, NC

8:50 AM–9:40 AM

Pigs in Toxicology: Differences in Metabolism and Background Findings

Kristi L. Helke, DVM, PhD, DACVP, Medical University of South Carolina, Charleston, SC

9:40 AM–10:10 AM

Refreshment Break

Exhibit Hall B Foyer

Wednesday

10:10 AM–10:50 AM

Cutaneous Toxicity in Non-Human Primates

Annette Romeike, DMV, DACVP, Covance Laboratories SAS, Porcheville, France

10:50 AM–11:40 AM

A Case of Drug-Induced Cutaneous Toxicity Observed in Cynomolgus Monkeys

Rie Kikkawa, DVM, PhD, DABT, DJCVP, DJSOT, DACVP, Novartis Institutes for Biomedical Research, East Hanover, NJ

8:00 AM–12:00 Noon

**Young Investigator Award
Poster Session
Exhibit Hall B Foyer**

12:00 Noon

Meeting Adjourned

ACVP/ASVCP/STP Post-Meeting Workshop I

(Registration required)

1:00 PM–5:00 PM

Room 101F

**Case-Based Molecular Pathology:
State-of-the-Art**

Co-Chairs: David E. Malarkey, DVM, PhD, DACVP, NTP, NIEHS, Research Triangle Park, NC; and Gerry O'Sullivan, MVB, MSc, PhD, DECVP, DACVP, University of Minnesota, St. Paul, MN

1:00 PM–1:10 PM

Overview of Workshop

David Malarkey, DVM, PhD, DACVP, NTP, NIEHS, Research Triangle Park, NC; and Gerry O'Sullivan, MVB, MSc, PhD, DECVP, DACVP, University of Minnesota, St. Paul, MN

Case #1: Utility of Clonality Assays in the Diagnosis of Malignant Lymphoma

Anne Avery, VMD, PhD, Colorado State University, Fort Collins, CO

Case #2: Application of Cytogenomics for the Diagnosis and Prognosis of Canine Neoplasms

Matthew Breen, PhD, CBiol, FSB, North Carolina State University, Raleigh, NC

Case #3: Molecular Biomarkers in Determining the Prognosis of Canine Mast Cell Tumors

Matti Kiupel, DrVetMed, BS, MS, PhD, DACVP, Michigan State University, Lansing, MI

Case #4: Genomics of Rat Liver Cancer: Origin and Evolution of Hepatoblastomas in the Mouse

Arun K. Pandiri, BVSc&AH, MS, PhD, DABT, DACVP, EPL, Inc./NTP, Research Triangle Park, NC

Case #5: Predictive Gene Profiling of Liver Toxicants and Carcinogens

Scott S. Auerbach, PhD, DABT, NTP/NIEHS, Research Triangle Park, NC

Case #6: Diagnosis of Porcine Epidemic Diarrhea: Which is the Latest New Important Disease in Swine

Stephanie Rossow, DVM, PhD, University of Minnesota, Minneapolis, MN

Case #7: Fulfilling Koch's Postulate: The Role of Molecular Biology in Establishing Illnesses Caused by Bartonellosis

Ricardo G. Maggi, MS, PhD, North Carolina State University, and Galaxy Diagnostics, Raleigh, NC

4:15 PM–4:45 PM

Panel Discussion with Workshop Faculty

4:45 PM–5:00 PM

Questions and Discussion

Post-Meeting Workshop II

(Registration required)

1:00 PM–5:00 PM

Room 200E

Mouse Central Nervous System Neuropathology

Co-Chairs: Jerrold M. Ward, DVM, PhD, DACVP, Global VetPathology, Montgomery Village, MD; and Caroline Zeiss, BVSc, PhD, DACLAM, DACVP, Yale University, New Haven, CT

1:00 PM–1:45 PM

Mouse Brain Evaluation: How and Where to Look—An Overview of Mouse Neuroanatomy

Deepa B. Rao, BVSc, MS, PhD, DABT, DACVP, FDA, Silver Spring, MD

1:45 PM–2:30 PM

An Overview of Mouse CNS Neuropathology: Spontaneous Findings, Artifacts, and Selected Induced Lesions

Ingrid D. Pardo, DVM, MS, DACVP, Pfizer, Inc., Groton, CT

2:30 PM–3:00 PM

Break with Review of Digital Slide Cases

3:00 PM–3:30 PM

Mouse Brain Tumors: GEM and Preclinical Models

Jerrold M. Ward, DVM, PhD, DACVP, Global VetPathology, Montgomery Village, MD

3:30 PM–4:15 PM

Translational Preclinical CNS Mouse Models I—Discovery

Caroline Zeiss, BVSc, PhD, DACLAM, DACVP, Yale University, New Haven, CT

4:15 PM–5:00 PM

Translational Preclinical CNS Mouse Models II—Safety

Ingrid D. Pardo, DVM, MS, DACVP, Pfizer, Inc., Groton, CT

Poster Times and Poster Setup

Poster Setup

Saturday, October 17 1:00 PM–6:30 PM

Focused Scientific Posters will be available for viewing in Hall B at the following times:

Sunday, October 18 9:30 AM–4:30 PM

Monday, October 19 9:30 AM–1:00 PM

Tuesday, October 20 9:30 AM–3:30 PM

Poster Teardown

Tuesday, October 20 3:30 PM–4:30 PM

If your poster is not removed before 4:30 pm on Tuesday, it will be removed and placed near the Registration Desk for pick up.

Session chairs at the Focused Scientific Session platform presentations will ask their attendees to visit the posters of their respective focused groups during the breaks. Please see below for the corresponding breaks at which you should be present during your poster:

- Clinical Pathology Posters: Tuesday morning break
- Diagnostic Pathology Posters: Sunday afternoon break
- Education Posters: Tuesday morning break
- Experimental Disease Posters: Tuesday afternoon break
- Industrial and Toxicologic Pathology Posters: Sunday morning break
- Natural Disease Posters: Sunday morning break

The poster abstracts are available on the combined meeting website at www.toxpath.org/am2015/index.asp, on the ACVP website at www.acvp.org, and on the mobile app.

Minneapolis Convention Center—Exhibit Hall

Clinical Pathology Poster Presentations

C-1 Trypanosoma Theileiri Infection in a Calf from Indiana

A.P. Santos, P.L. Deshuillers, N.C. Nascimento, S.D. Taylor, A.W. Bianco, J.B. Messick, and C.T. Thompson

Keyword: Infectious Disease

C-2 Hematological Disorders Associated to *Bartonella* spp. in Shelter Cats from Rio de Janeiro, Brazil

J.M. Raimundo, A. Guimarães, A.T. da Silva, R.B. Rodrigues, G.M. Amaro, C.F.M. Botelho, E.R.S. Lemos, A.R.M. Favacho, and C.D. Baldani

Keyword: Infectious Disease

C-3 Two Dogs Infected with *Babesia* Sp. (CoCo) in Oklahoma

S. Fujita, L.A. Starkey, R.W. Allison, and J.H. Meinkoth

Keyword: Infectious Disease

C-4 Molecular Survey of *Mycoplasma* spp. in Dogs from Shelters of Rio de Janeiro State, Brazil Using Real Time PCR

A.T. da Silva, J. M. Raimundo, A. Guimarães, G.M. Amaro, C.F.M. Botelho, H.A. Santos, and C.D. Baldani

Keyword: Infectious Disease

C-5 Biological Variation, Index of Individuality and Reference Change Value of Hematological and Biochemical Variables in Laboratory Cats

C. Trumel, C. Monzali, A. Geffré, D. Concordet, L. Hourqueig, J.P. Braun, and N. Bourguès-Abella

Keyword: Clinical Pathology

C-6 Reactive Lymphocytosis in a Bearded Dragon

B. Meyer, K. Fisher, L. Corriveau, and R. Raskin

Keyword: Hematology

C-7 Changes in Hemostatic Tests in Dogs with Chronic Kidney Disease

D.S. Gonçalves, S.S. Gerales, P.T.C. Guimarães-Okamoto, and R.K. Takahira

Keyword: Clinical Pathology

C-8 Blood Gas Analysis in Cats: A Retrospective Study of the Classification of Common Disorders in Domestic Felines

F.A.V. Costa, E.R. Monteiro, D.D. Lerner, and F.H.D. González

Keyword: Clinical Pathology

C-9 Application of Current Automated Urine Microscopy in Veterinary Medicine

D.B. DeNicola, J. Hammond, G. Bayer, G. Bilbrough, A. Rebar, and R. Cowell

Keyword: Clinical Pathology

C-10 Erythrocyte and Leukocyte Count Precision with an In-Clinic Automated Urine Sediment Microscopy System

J. Hammond, L. Moisan, G. Bilbrough, and D.B. DeNicola

Keyword: Clinical Pathology

C-11 Examination of Imprecision and Effectiveness of Different Centrifugation and Uncentrifugation Methods for Urine Sediment Microscopic Evaluation

J. Chase, J. Hammond, G. Bilbrough, and D.B. DeNicola

Keyword: Clinical Pathology

C-12 Evaluation of (1,3)-Beta-D-Glucan as a Biomarker of Systemic Fungal Infection in Dogs and Cats

J. Renschler and L.J. Wheat

Keyword: Infectious Disease

C-13 Evaluation of a Chromogenic Assay to Measure the Factor Xa Inhibitory Activity of Low Molecular Weight Heparin in Rabbit Plasma

F. Poitout-Belissent, L. Huard, M. Fergusson-Graton, D. Lourdel, J. McCartney, T. Nekoroski, and R. Sekulovich

Keyword: Hematology

C-14 Assessment of Two Glucose Meters for Glycemic Control in Horses

A.G. Pöppel, S.F. Valle, N.J.S. Nunes, T.S. Mikhailenko, D. Zaro, K.M.S.C. Souto Maior, and C.A.C. Beck

Keyword: Clinical Chemistry

C-15 Evaluation of a Human Glycated Hemoglobin Test for the Diagnosis of Diabetes Mellitus in Dogs

N-Y Kim, M-C Kim, G-W Ha, J-H Kim, S-W Yeh, and H. Kim

Keyword: Endocrine

C-16 Soluble CD163 (sCD163), a Novel Biomarker of Macrophage Activation and Proliferation in Cynomolgus Monkeys

M. Winter, F. Christen, E. Atzpodien, J. Funk, F. Regenass, and M. Odin

Keyword: Immune System

C-17 The DNA-Alkylating, Anticancer Drug Temozolomide Protects Rats from Dose-Limiting Pancreatic Toxicity Produced by the Smac-Mimetic Anticancer Drug TL3271

D-53 A Review of the Cause and Manner of Death of 100 Forensic Necropsy Cases

A. Stern and E. Asrow

Keyword: Forensic Veterinary Pathology

Poster Presentations

ACVP | ASVCP | STP
Combined Annual Meeting | October 17-21, 2015

Minneapolis, Minnesota

Minneapolis Convention Center

D-54 Benign and Malignant Renal Vascular Tumors in Captive Aged Chimpanzees (*Pan troglodytes*) from Alamogordo Primate Facility

J. Chilton and M. Lammey

Keyword: Urinary System

D-55 Bovine "Winter Dysentery" Outbreak during the Summer in Southern California

S. Diab

Keyword: Infectious Disease

D-56 Bovine Fetal Emphysema Associated with *In Utero Clostridium chauvoei* Infection

E.E. Edwards, J.F. Edwards, F.A. Uzal, and R.R. Rech

Keyword: Muscle

D-57 Bovine Neosporosis and Abortions in British Columbia, Canada

S. Raverty, D. Wilson, K. Orsel, J. Waddington, M. Rajeev, A. Sweeny, T. Joseph, and M. Grigg

Keyword: Reproductive System

D-58 Canine Herpesvirus-1-Induced Acute Systemic Respiratory Disease in Three Clinically Healthy Adult Dogs with Evidence of Horizontal Transmission

S. Yang and J. Cooley

Keyword: Infectious Disease

D-59 CCDC85C Expression in Mammary Gland Tumors in Animals

N. Tanaka, T. Izawa, J. Yamate, and M. Kuwamura

Keyword: Neoplasia

D-60 Cerebellomedullary Neuronal Degeneration in a Havanese Puppy: A New Syndrome?

J. Perkins, J.H. Hammond, B.A. Summers, and A.D. Miller

Keyword: Nervous System

D-61 Characterization of Neuropathological Changes in Murine Models of Mucopolysaccharide Storage Disease

N. Robinson

Keyword: Nervous System

D-62 *Clostridium difficile* Colonic Infection in a White-Tailed Deer (*Odocoileus virginianus*) with Caprine Herpesvirus-2-Associated Malignant Catarrhal Fever

F. Giannitti, H. Li, D. Patnayak, K. Olsen, B. Crossly, H. Moore, and F. Uzal

Keyword: Infectious Disease

D-63 Comparison of Cutaneous Mast Cell Tumour Grading in Histological Two-Tier Grading System with Ki-67 Grading

M. Van Erp, R. de Kroon, C. Dirken, and J.S. McKay

Keyword: Neoplasia

D-64 Demonstration of Spontaneous Transplacental Transmission of Ovine Herpesvirus Type 2 in Cattle with Sheep-Associated Malignant Catarrhal Fever

S.A. Headley, L.A. Pimentel, V.H.S. Oliveira, H.S. Toma, A.F. Alfieri, A.M. Carvalho, M.D. dos Santos, and A.A. Alfieri

Keyword: Infectious Disease

D-65 Estimating Shooting Distance in Gunshot Wounds to Animals

J.W. Brooks, R. Ristenbatt, I. Gronchi, S. O'Brien, M. Lyman, and K. Mantz

Keyword: Forensic Veterinary Pathology

D-66 Extra-gastrointestinal Stromal Tumor from the Mesentrey of Small Bowel in a Dog

T. Furukawa, A. Shiotsuki, K. Nibe, K. Ono, and H. Hirao

Keyword: Neoplasia

D-67 Feline Decapitation: Pre-mortem Cause of Death or Post-mortem Mutilation?

A. Keggan and S. McDonough

Keyword: Forensic Veterinary Pathology

D-68 Flouro-Jade C: A Marker for Neuronal Degeneration in Equine Neonatal Maladjustment Syndrome

R.E. Ruby, A.D. Miller, and T. Southard

Keyword: Nervous System

D-69 *Haemoproteus meleagridis* in an Ocellated Turkey (*Meleagris ocellata*)

H. Grodi, M. Davis, and L. Farina

Keyword: Avian

D-70 Immunohistochemical Characterization of Lymphocytic and Granulomatous Lesions in Beef Cattle with Citrus Pulp Toxicity

W.L. Castleman and M.T. Long

Keyword: Toxicologic Pathology

D-71 Intestinal Giardiasis and Post-treatment Enteritis in Wild-Caught Prairie Dogs

J.M. Ritter, R.M. Engel, J.S. Salzer, N.F. Gallardo-Romero, C.L. Hutson, M.G. Metcalfe, G.S. Visvesvara, D.M. Roellig, G.L. Langham, D.S. Carroll, and I.K. Damon

Keyword: Wildlife

D-72 Intracerebral Malignant Plasmacytoma in a Mule Deer (*Odocoileus hemionus*)

C.S. Clancy, A. Rougb, and A.J. Van Wettarea

Keyword: Wildlife

D-73 Intranasal Osteolipoma in a Cynomolgus Monkey

O. Katsuta, T. Shibata, Y. Kuriki-Yamamoto, T. Mochizuki, M. Yoshimi, and T. Noto

Keyword: Primates

D-74 Liver Failure by Hypoplasia of the Gallbladder in a Dog

J.C. Osorio-Baños, J. Ocampo-López, and M.A. ServiN-Trujillo

Keyword: Liver and Pancreas

D-75 Mast Cell Rich Epitheliotropic Lymphoma in a Cat

J. Ragsdale, N. Takács, and K. Kuroki

Keyword: Neoplasia

D-76 Micro-CT of Formalin Fixed Cardiac Tissue Detects Mineralization in GRMD Cardiomyopathy

S.M. Schneider, S. Lee, and B.R. Weeks

Keyword: Cardiovascular

D-77 *Mycoplasma haemocanis* in a Splenectomized, Thrombocytopenic Dog with a Recent History of a Coyote Bite

L. Kelly, D. Volokhov, N. Gottdenker, A. Page-Karjian, and M. Camus

Keyword: Infectious Disease

D-78 Myopathy of the Tail Muscles in Beagle Dogs Used in Preclinical Toxicity Studies

M. Abdi, H. White, and J. Boxal

Keyword: Muscle

D-79 National Registry of Forensic Veterinary Pathology: It Might Be a Worthwhile Effort!

A. Wünschmann, S.P. McDonough, J. Gerdin, B.J. McEwen, and J.W. Brooks

Keyword: Forensic Veterinary Pathology

D-80 Olfactory Neuroblastoma and Neuroendocrine Carcinoma in Two Dogs. Immunohistochemistry Diagnostic Criteria - Case Report

M.D. Ronderos, N.A. Cortés, B. Doncel, P. Barato, and J.C. Ospina

Keyword: Neoplasia

D-81 Parvoviral Myocarditis in a Litter of Puppies

K. Atkinson, J. Ragsdale, and N. Takács

Keyword: Infectious Disease

D-82 Pathologic Features of a Nasal Adenocarcinoma in a Cynomolgus Macaque (*Macaca fascicularis*)

M. Novilla, M. Cottingham, E. Mendoza, J. Bernal, K. Breyer, and S.Jacobson

Keyword: Neoplasia

D-83 Pathological, Immunohistochemical, and Molecular Confirmation of Senecavirus A in Piglets from Southern Brazil

S.A. Headley, R.A. Leme, T.E.S. Oliveira, B.K. Alcântara, L.A. Freitas, A.F. Alfieri, M. Yang, and A.A. Alfieri

Keyword: Infectious Disease

D-84 Pathology and Diagnostic Criteria for Necrotic Enteritis of Chickens

D. Gornatti, H. Sivaprasad, and F.A. Uzal

Keyword: Avian

D-85 Peritoneal Rhabdomyosarcoma in a Cat

L.A. Garcia-Camacho, M. López-Montaña, C. Cedillo-Pelaez, F.J. Vazquez-Garcia, E. Farfán-Morales, and I.C. Rangel-Rodríguez

Keyword: Neoplasia

D-86 Persistent Thrombocytosis in a Dog

D. Hoffman, N. Hoepf, and A. Royal

Keyword: Hematopoietic System

D-87 Pleomorphic Adenoma of the Submandibular Salivary Gland in a Horse

S. Diab

Keyword: Neoplasia

D-88 Plexiform Pulmonary Arteriopathy in a Dog

S. Kumar and A.J. Cooley

Keyword: Cardiovascular

D-89 Pseudotuberculosis: An Easily Missed Respiratory Pathogen in Immunosuppressed Rats

T-Y Chen, Y-H Chang, Y-L Chen, and K-H Lee

Keyword: Infectious Disease

D-90 Septicemia with Necrotizing Enteritis by *Listeria Monocytogenes* in a Bovine Calf

H. Taylor, W. Fales, M. Calcutt, T. Reilly, I. Ganjam, J. Bowman, and D.Y. Kim

Keyword: Alimentary

D-91 Soda and Snacks: Applying Veterinary Forensic Techniques to Food Contamination

A.B. Schaffer-White and R.E. Allavena

Keyword: General

D-92 Surfactant Protein-A As an Immunohistochemical Marker of Canine Primary Pulmonary Carcinomas

J.A. Beck, M.A. Miller, C.B. Frank, D.M. DuSold, and J.A. Ramos-Vara

Keyword: Neoplasia

D-93 Systemic Coronavirus-Associated Disease Caused by “Ferret Enteric Coronavirus” in a Ferret (*Mustela putorius furo*)

H. Kondo, H. Toge, S. Tsuruno, Y. Une, S. Minami, and K. Maeda

Keyword: Ferret

D-94 Systemic Histoplasmosis in an Adult Porcupine (*Erethizon dorsatum*)

A. Hattel, R. Graboski, and J. Brown

Keyword: Wildlife

D-95 Trichomonads and *Brachyspira murdochii* Infection in Pigs with Colitis

F. Giannitti, C. Gebhart, J. Sarradell, K. Sverlow, and M. Culhane

Keyword: Infectious Disease

D-96 Undifferentiated Carcinoma in the Mandible of a Holstein Cow

N. Horiuchi, S. Kayo, K. Yoshimoto, H. Inokuma, and Y. Kobayashi

Keyword: Alimentary

D-97 Unilateral Ureteral Fibroepithelial Polyp in a Dog

A. Berrocal and W. Moreno

Keyword: Urinary System

D-98 Vascular Leiomyosarcoma in a Dog

L.A. Garcia-Camacho, C. Cedillo-Pelaez, F.J. Vázquez-García, E. Farfan-Morales, and I.C. Rangel-Rodriguez

Keyword: Neoplasia

D-99 Necropsies of Four Cats Seized from a Hoarding Situation

A. Sarfaty and S.P. McDonough

Keyword: Forensic Veterinary Pathology

D-100 An Effort to Increase Necropsy Rate of Companion Animals in Japan

I. Mitsui

Keyword: General

D-101 Two Cases of Neoplasia in Captive White Spotted Bamboo Sharks (*Chiloscyllium plagiosum*)

J. Rosenberg, M. Haulena, B. Culp, H. Evans, H. Snyman, and S. Raverty

Keyword: Neoplasia

D-102 Vasa Vasorum Arteriopathy in Hypertensive Cats

Rebecca Kohnken¹, Page Yaxley, and Christopher Premanandan

Keyword: Cardiovascular

D-103 Complete Splenic Abscessation with Septic Peritonitis in a Hunting Dog

K. Schlicher^{1,2}, K. Wycislo, M. Bates, P. Roady, and A. Barger

Keyword: Infectious Disease

¹Competitor for the ACVP Young Investigator Award

²Competitor for the STP Student Poster Award

Education Focused Scientific Poster Presentations

ED-1 The Importance of Ergonomics in Minimizing Postural Stress and Associated Pathology

M. Camus

ED-2 Building an Internal Pathology Technician Certification Program at MPI Research

C. Hollinger

ED-3 Augmenting General Pathology Labs with Case Reports Authored by Senior Veterinary Students

A. Fales-Williams

Experimental Disease Focused Scientific Poster Presentations

E-1 Cross-Disciplinary Synergy: Combining Histopathology and Systems Biology to Characterize Experimental Pandemic H1N1 Influenza Infections in Ferrets

D. Gasper¹, J. Tisoncik-Go, J. Kyle, A. Eisfeld, C. Selinger, M. Hatta, J. Morrison, E. Zink, Y. Kim, A. Schepmoes, S. Purvine, K. Weitz, R. Green, S. Tilton, B. Webb-Robertson, K. Waters, T. Metz, R. Smith, Y. Kawaoka, M. Suresh, L. Josset, and M. Katze

Keyword: Ferret

E-2 Induced Bronchus-Associated Lymphoid Tissue and Germinal Center Formation in the Murine Lung Following Influenza A Virus Infection

K.N. Gibson-Corley, A.W. Boyden, L. Tygrett, and T.J. Waldschmidt

Keyword: Immune System

E-3 The Role of Club Cell Secretory Protein (CC10) in Respiratory Syncytial Virus Infection

S. S. Alnajjar¹, A. Larios-Mora, A. van Geelen, J. M. Gallup, A. Pilon, and M.R. Ackermann

Keyword: Infectious Disease

E-4 JNJ-49214698 Efficacy in a Neonatal Lamb Model of RSV Infection

S.S. Alnajjar¹, A. Larios-Mora, A. Geelen, J.M. Gallup, D. Roymans, A. Koul, P. Rigaux, and M.R. Ackermann

Keyword: Infectious Disease

E-5 Cellular Distribution of Dipeptidyl Peptidase-4 (CD26) in the Respiratory Tract: Implications for Animal Models of Middle East Respiratory Syndrome

D.K. Meyerholz, A.M. Lambertz, and P.B. McCray, Jr.

Keyword: Respiratory System

E-6 Velogenic and Mesogenic Newcastle Disease Virus Protein within Neurons, Astrocytes, and Microglia

S.L. Butt¹, C.L. Afonso, V.M.B.D. Moura, L. Susta, S. Cardenas-Garcia, P.J. Miller, C.C. Brown, and J.B. Stanton

Keyword: Avian

E-7 Thyroid Hypertrophy in Cats Infected with Highly Pathogenic Feline Immunodeficiency Virus

S.R. Roff¹, A.M. Aranyos, R. Pu, J.L. Owen, W.M. Zoll, and J.K. Yamamoto

Keyword: Infectious Disease

E-9 Susceptibility of Deer Mouse (*Peromyscus maniculatus*) to Vesicular Stomatitis New Jersey Virus Infection via Black Fly (*Simulium vittatum*) Bite

L.P. Mesquita, M.H. Abbott, E.W. Howerth, D.E. Stallknecht, R. Noblet, E.W. Gray, and D.G. Mead

Keyword: Infectious Disease

E-10 An Experimental Model for Studying the Pathogenesis of a Newly Emergent Turkey Arthritis/Tenosynovitis Reovirus in Turkeys

T.A. Sharafeldin^{1,3}, S.K. Mor, S.M. Goyal, and R.E. Porter

Keyword: Avian

E-11 Pathogenesis of *Pasteurella multocida* Lipopolysaccharide in the Respiratory Tract of Rabbits

M.P. Patiño, P.A. Barato, G.G. Gonzalez, and C.A. Iregui

Keyword: Respiratory System

E-12 Glyco-inhibitors of Adherence of *Streptococcus agalactiae* to Intestinal Epithelium in Tilapia (*Oreochromis sp.*)

P. Barato³, G.M. Vasquez, and C. Iregui

Keyword: Infectious Disease

E-13 Effect of *Amblyomma maculatum* Feeding on the Cutaneous Immune Response to Rickettsia Parkeri Infection in a Murine Model

K.H. Banajee¹ and K.R. Macaluso

Keyword: Infectious Disease

E-14 Fatal *Plasmodium knowlesi* Infection in Three Bolivian Squirrel Monkeys

M.K. Keating, J.M. Ritter, C.P. Drew, C.S. Goldsmith, J.W. Barnwell, and A. Muehlenbachs

Keyword: Infectious Disease

E-15 Histomorphological Aspects of Experimental *Trypanosoma brucei* Infection

T. Carvalho, F. Rijo-Ferreira, S. Trindade, and L.M. Figueiredo

Keyword: Infectious Disease

E-16 Matrix Metalloproteinase 2 Activity in Scrapie Permissive and Nonpermissive Cultured Sheep Microglia

J.B. Stanton, V.R. McElliot, J.F. Muñoz-Gutiérrez, and D.A. Schneider

Keyword: Infectious Disease

E-17 Scrapie Transmits to White-Tailed Deer by the Oral Route and Has a Molecular Profile Similar to Chronic Wasting Disease

J.J. Greenlee, S.J. Moore, J.D. Smith, R.A. Kunkle, and M.H. West Greenlee

Keyword: Infectious Disease

E-18 Transmission of Chronic Wasting Disease to Sentinel Reindeer (*Rangifer tarandus tarandus*)

S.J. Moore, R.A. Kunkle, E.M. Nicholson, J.A. Richt, A. Hamir, W.R. Waters, and J.J. Greenlee

Keyword: Nervous System

E-19 Brain Derived Lipids Inhibit Prion Amyloid Formation *In Vitro*

C.E. Hoover^{1,2}, D.M. Henderson, M. Zabel, and E.A. Hoover

Keyword: Infectious Disease

E-20 Exploring Anti-tumor Properties of Human CD8+BTLA+Tumor Infiltrating Lymphocyte Subset Using NSG Mouse Model

K. Ritthipichai, C. Haymaker, R. Nurieva, P. Hwu, and C. Bernatchez

Keyword: Immune System

§E-21 Suppression of Breast Cancer Stem Cells in the MMTV-HER2/NEU Mouse Model by the HDAC Inhibitor AR-42

L.E. Himmel^{1,2}, M-W Chao, E-C Hsu, L.D. Yee, S.K. Kulp, and C-S Chen

Keyword: Mammary

§E-22 The Histone Deacetylase Inhibitor AR-42 Suppresses Tumor Growth in Mouse Models of Pancreatic Cancer

S.E. Henderson^{1,2}, P.H. Huang, L.Y. Ding, T. Bekaii-Saab, S.K. Kulp, and C.S. Chen

Keyword: Liver and Pancreas

E-23 NLRX1 Attenuates Tumorigenesis through the Negative Regulation of AKT and NF-κB Signaling

S. Coutermarsh-Ott¹, T. LeRoith, C. Washington, N. Dervisis, R. Hontecillas-Magarzo, J. Bassaganya-Riera, and I. Allen

Keyword: Neoplasia

E-24 Transforming Growth Factor Beta Inhibition Reduces Osteosarcoma Pulmonary Metastases

K.L. Wycislo, M. Byrum, H. Pondenis, B. Fadl-Alla, A. Gal, and T.M. Fan

Keyword: Immune System

E-25 Activation of K-rasG12D in K-rasLSLErGFPcre Mouse Model Leads to Hematopoietic, Vascular, and Epithelial Defects

S.R. Jayapal, M. Al-Haddawi, C.Q. Wang, F.M. Ibrahim, M. Osato, and P. Kaldis

Keyword: Neoplasia

E-26 Spontaneous Tumors in Chimeric Rats Generated from Dark Agouti ES Cells

K. Yekkala, J.M. McGrath, T. Nottoli, Y. Yang, and C.J. Zeiss

Keyword: Neoplasia

E-27 Determining the Role of Post-castration Inflammation in the Progression of Prostate Cancer Using a Syngeneic Mouse Model

C.J. Pinelli^{1,2}, S.D. Kim, and G.A. Wood

Keyword: Neoplasia

E-28 Aurora kinase Inhibition in Ewing Sarcoma Xenografts

A.C. McCalla^{1,3,4}, N.J. Caplen, and L.J. Helman

Keyword: Neoplasia

E-29 Human-Like Histology in a UV-Induced BRAF V600E Mutant Mouse Model of Melanoma

H. Michael¹, C-P Day, and G. Merlino

Keyword: Neoplasia

§E-30 Quantification of Telomerase in an Oral Squamous Cell Carcinoma Model

W. Supsavhad, W. Dirksen, and T. Rosol

Keyword: Neoplasia

E-31 Expression of Stem Cell and Epithelial-Mesenchymal Transition (EMT) Markers in Progression of Human Cervical Neoplasia and Following Cigarette Smoke Condensate Exposure in Human Ectocervical Cells

X. Gao², C. Fulbright, L. Yu, L. Castro, D. Walmer, and D. Dixon

Keyword: Reproductive System

E-32 Genome-Wide Identification of Susceptibility Loci for Malignant Phenotypes in Pulmonary Adenocarcinoma

E.F. Edmondson^{1,3}, D.M. Gatti, C.M. Fallgren, R.R. Rampersad, and M.M. Weil

Keyword: Neoplasia

E-33 Prostate Inflammation Increases Carcinoma Development in the POET3+Pten^{-/-} Mouse Model of Prostate Carcinogenesis

G.N. Burcham, G.M. Cresswell, R.E. Vickman, P.W. Snyder, L. Chen, X. Liu, S.A. Crist, M.D. Henry, and T.L. Ratliff

Keyword: Neoplasia

E-34 Ahr Deletion Increases Rate of Thymic Lymphoma and Decreases Survival in P53-Deficient Mice

J.L. Phillips, C.V. Lohr, and S.K. Kolluri

Keyword: Neoplasia

E-35 Conjugated Linoleic Acid in the Treatment of Murine Autoimmune Disease

S. Barrett¹, N. Regna, A. Gojmerac, C. Chafin, M. Vieson, and C. Reilly

Keyword: Immune System

E-36 Treatment with a Selective Histone Deacetylase 6 Inhibitor Decreases Lupus Nephritis in NZB/W Mice

M.D. Vieson¹, A. Gojmerac, D. Caudell, S.H. Barrett, and C.M. Reilly

Keyword: Immune System

E-37 Loss of NLRX1 Results in Increased Intestinal Pathology and Exacerbated T Cell Responses in Mice with Inflammatory Bowel Disease

K. Eden¹, R. Hontecillas, M. Viladomiu, C. Philipson, A. Carbo, A. Leber, N. Philipson, I. Tattoli, S.E. Girardin, I.C. Allen, and J. Bassaganya-Riera

Keyword: Alimentary

E-38 IL-27 Acts on Epithelial and Inflammatory Cells in the Resolution of Murine Colitis

C. Andrews^{1,3}, M. McLean, M.L. Hanson, and S.K. Durum

Keyword: Alimentary

E-39 The Effect of PI3K Gamma KD and PI3K Delta KD on Intestinal Lesions in Mice with DSS-Induced Colitis

A. Klein, A. Guy, J. Vegas, F. Schoetens, J.E. McDuffie, W. Fung-Leung, T. Rao, B. Zimmerman, and C. Loudon

Keyword: Alimentary

E-40 A Method for Histopathologic Study of the Multifocal Nature of Spinal Cord Lesions in Experimental Autoimmune Encephalitis

K.N. Gibson-Corley, A.W. Boyden, M.R. Leidinger, A.M. Lambert, G. Ofori-Amanfo, P.W. Naumann, J.A. Goeken, D.K. Meyerholz, and N.J. Karandikar

Keyword: Nervous System

E-41 Vascular Lumen Preservation and Optimization for *In Vivo*-Like Peripheral Vasculature Dimensions in Histology for Proper Preclinical Device Evaluation

A. Tellez, K.N. Dillon, J.A. Wicks, and S.D. Rousselle

Keyword: Cardiovascular

E-42 Cell Proliferation Markers as a Valuable Tool for Preclinical Evaluation of Vascular Interventions

K. Dillon, S. Wilson, J. Guerrero, D. Brady, W. Grundy, J. Wicks, S. Rousselle, and A. Tellez

Keyword: Cardiovascular

E-43 Early Three-Dimensional Atherosclerotic Lesion Development in Scavenger Receptor Class B Type I-Deficient, Hypomorphic Apolipoprotein ER61 Mice and the Association with Endothelial and Smooth Muscle Cell Damage

L. Zadrozny, B. Lucotte, and R. Balaban

Keyword: Cardiovascular

E-44 Cardiomyopathy in a Canine Model of CLN2 Disease

G.C. Johnson, S. Leach, B. Williamson, W. Young, L. Castaner, J.R. Coates, B.L. Davidson, and M.L. Katz

Keyword: Cardiovascular

E-45 A Novel Way of Epithelial Spreading: Lessons from the Developing Epicardium

J.G. Vilches-Moure and C.A. Erickson

Keyword: Cardiovascular

E-47 Effects of Oxidized Low Density Lipoprotein on an *In Vitro* Model of Osteoarthritis

K. Kuroki, C.R. Kennedy, A.M. Stoker, and J.L. Cook

Keyword: Bone and Joint

E-48 Evaluation of Partial Transection versus Synovial Debridement of the ACL as Novel Canine Models for Management of ACL Injuries

C.C. Bozynski, K. Kuroki, J.P. Stannard, P.A. Smith, A.M. Stoker, C.R. Cook, and J.L. Cook

Keyword: Bone and Joint

E-49 Calprotectin Expression is Constitutively Altered in the Cystic Fibrosis Pig at Birth Prior to the Onset of Neutrophil Mediated Inflammation

D.K. Meyerholz, L. Paemka, D.A. Stoltz, M.J. Welsh, P.B. McCray, and R.D. Gray

Keyword: Respiratory System

E-50 Morphologic Artifacts Related to Insufflation Material for Lung Cryo Sectioning

K.N. Gibson-Corley, M. Leidinger, J.A. Goeken, P.W. Naumann, A. Lambertz, G.K. Ofori-Amanfo, and D.K. Meyerholz

Keyword: Respiratory System

E-51 Comparison of IBA1 Localization in Common Model Species Used to Study Human Lung Disease

D.K. Meyerholz, A.M. Lambertz, H.A. Flaherty, and K.N. Gibson-Corley

Keyword: Respiratory System

E-52 A Novel Porcine Model of Ataxia Telangiectasia Reproduces Neurological Features and Motor Deficits of Human Disease

D.K. Meyerholz, R. Beraldi, C. Chan, C.S. Rogers, J.M. Weimer, A.D. Kovács, B.W. Darbro, B.A. Dacken, and D.A. Pearce

Keyword: Nervous System

E-53 Histological and Ultrastructural Studies on the Canavan Disease Model Rat

M. Kuwamura, S. Tanimura, M. Tanaka, T. Izawa, T. Kuramoto, and J. Yamate

Keyword: Nervous System

E-54 Pathogenesis of Forebrain Abnormalities in a Teratogen-Induced Model of Orofacial Clefting

L. Ansen-Wilson², J. Everson, G. Heyne, and R. Lipinski

Keyword: Nervous System

§E-55 *In Situ* Identification of Brain Lipid Alterations by Imaging Mass Spectrometry (IMS) in Mouse Models of Toxin-Induced Experimental Demyelination

R.J. Maganti^{1,2}, X. Hronowski, P. Juhasz, B. Wipke, A.B. Rogers, and R.W. Dunstan

Keyword: Nervous System

E-56 Probing the Role of Low-Threshold Mechanoreceptors in the Pathophysiology of Pain

L.K. Crawford^{1,2,3}, X. Dong, D.D. Ginty, and M.J. Caterina

Keyword: Nervous System

E-57 Investigation of Clomiphene Citrate Treatment on Spermatogenesis and Testicular Histomorphology in Rats

K.N. Gibson-Corley, P. Kogan, P.W. Naumann, J.A. Goeken, and M. Wald

Keyword: Reproductive System

E-59 Dietary Iron Overload Alters Hepatic Inflammation in a Rat Model of Nonalcoholic Steatohepatitis

T. Izawa, M. Atarashi, R. Miyagi, M. Kuwamura, and J. Yamate

Keyword: Liver and Pancreas

¹Competitor for the ACVP Young Investigator Award

²Competitor for the STP Student Poster Award

³Competitor for the ACVP/ASIP Trainee Travel Award

⁴Competitor for the STP/ACVP Young Investigator Award

Natural Disease Focused Scientific Poster Presentations

N-1 Lectin Histochemistry Evaluation of Liver and Mesenteric Lymph Node of Buffaloes Kept in *Brachiaria* spp. Pastures

I.C. Miranda, G. Riet-Correa, B. Riet-Correa, P.V. Peixoto, S.Z. Costa, M.S. d'Ávila, G.C. Cid, and T.N. França

Exhibitor Hosted Sessions

Sunday, October 18

7:00 AM-8:00 AM

Room 200G

Datacolor Inc.

***Application of Color Calibration in
Photomicrography for Research Pathology***

In research pathology, it is critical that color in photomicrographs and gross images accurately represents what is seen in the specimen. Consistency between images and image color rendering on computer monitors is essential for viewing and evaluating images. Several case studies will illustrate the importance of color calibration to assessments in research studies.

Monday, October 19

7:00 AM-8:00 AM

Room 200G

Leica Biosystems/Aperio

***Peer-to-Peer Opportunity to Learn How Your
Colleagues Are Using Digital Pathology Solutions
to Improve Turnaround Time and Expedite
Results***

Learn about the latest advances in the Aperio Digital Pathology portfolio including: new tissue imaging instruments, anytime, anywhere image sharing and collaboration applications, and easy-to-use quantitative image analysis tools.

Monday, October 19

12:15 PM-1:15 PM

Room 200G

Marshall BioResources

***Sexual Maturity of The Gottingen Minipig: A
Complex Story***

We will describe the stages of spermatogenesis in young Gottingen Minipig males aged 5-8 weeks. It is also evident that the environment influences puberty in swine. Therefore, we will also present our current work exploring the role the environment plays in the induction of estrous in female minipigs.

Tuesday, October 20

12:15 PM-1:15 PM

Room 200G

Visiopharm and HistoTox Labs, Inc.

***Quantitative Digital Pathology Services for
Discovery and Pre-Clinical: Raising the Bar on
Quality, Innovation, and Productivity***

Advance registration is requested.

Quantitative Digital Pathology (QDP) is the automated, quantitative assessment of whole slide images of tissue sections. QDP is an extremely important tool to better understand disease, target validation, determine the safety and efficacy of lead compounds, and for the qualification of biomarkers to support companion diagnostics. Yet, to precisely measure changes in hundreds of tissue samples for a research, discovery, or pre-clinical study, the workflow from histology to report must be optimized and standardized.

ACVP Student Chapters

607

2424 American Lane
Madison, WI 53704
Tel: 608-443-2466
Fax: 608-443-2474
Email: info@acvp.org
Website: www.acvp.org

Stop by the ACVP Student Chapters Booth to meet the next generation of veterinary pathologists and to support their fundraising efforts.

American College of Veterinary Pathologists (ACVP)

608

2424 American Lane
Madison, WI 53704
Tel: 608-443-2466
Fax: 608-443-2474
Email: info@acvp.org
Website: www.acvp.org

The mission of the College is to foster excellence in veterinary pathology to protect and improve animal, human and environmental health to benefit society. Visit our Booth #608 for samples of journals, membership materials and other items of interest.

American Society for Investigative Pathology (ASIP)

303

9650 Rockville Pike, Suite E133
Bethesda, MD 20814
Tel: 301-634-7130
Fax: 301-634-7990
Email: asip@asip.org

The American Society for Investigative Pathology (ASIP) promotes the discovery, advancement, and dissemination of knowledge in experimental pathology. ASIP fosters investigation into the pathogenesis, classification, diagnosis, and manifestations of disease through meetings, publications, and educational activities. ASIP owns The American Journal of Pathology and co-owns The Journal of Molecular Diagnostics.

Antech Diagnostics GLP

504

600 Airport Blvd., Suite 500
Morrisville, NC 27560
Tel: 919-277-0822
Fax: 919-277-0825
Email: david.brown@antechmail.com
Website: www.antechglp.com

Antech Diagnostics GLP offers a full service Good Laboratory Practice compliant clinical pathology reference laboratory performing hematology, chemistry, urinalysis, coagulation, immunoassays, hormone analysis and esoteric tests. Antech now offers veterinary clinical trial testing and non-GLP studies.

Aspect Imaging

415

60 St. Clair Avenue East, Suite 703
Toronto, ON M4T 1N5
Canada
Tel: 647-260-1991
Email: ywineberg@aspectimaging.com
Website: www.aspectimaging.com

Aspect Imaging's M2™ 3D MR-based histology system enables 3D imaging and quantification of intact tissue samples or whole body mice and rats for the modern toxicological pathologist. The M2's novel MRI platform non-invasively generates digital slices of specimens in multiple planes of intact organs. A compliment to conventional histology, MR-based histology enables the rapid acquisition of 3D data of the entire target organ for a more comprehensive assessment of the toxicological effect. *In vivo* imaging of the animal is also possible for longitudinal studies preceding *ex vivo* imaging.

Bradley Products, Inc.

409

1700 West 94th Street
Bloomington, MN 88431
Tel: 952-881-1430
Fax: 852-881-1873
Email: dms@bradleyproducts.com
Website: www.bradleyproducts.com

Bradley Products is the manufacturer of The Davidson Marking System, the first tissue marking system specifically developed for use in orienting tissue specimens. Economical, efficient, visible, reliable and safe, the Davidson Marking System tissue marking dyes have been in use worldwide since 1984 and are CE marked for Europe. DMS dyes are appropriate for both fresh and frozen tissue processing.

Bruker Daltonics

402

40 Manning Road
Billerica, MA 01821
Tel: 978-663-3660
Fax: 978-667-5993
Email: ms-sales@bruker.com
Website: www.bruker.com

Bruker Corporation is a leading provider of Chromatography and Mass Spectrometry instruments and solutions for the Analytical Sciences. Our innovative and easy-to-use product families (ESI-QTOF, Ion Trap, FTMS, MALDI-TOF, LC-Triple Quads and GC-Triple Quads) provide the highest performance, ruggedness, and value for a wide range of applications in the food, environmental, forensic, industrial, pharmaceutical, and life science research markets.

Charles River

508

251 Ballardvale Street
Wilmington, MA 01887
Tel: 781-222-6548
Email: jessica.janiak@crl.com
Website: www.criver.com

Charles River offers extensive resources dedicated to pathology support for your product discovery and development activities. Our multidisciplinary expertise, state-of-the-art technology and depth of experience with large and small molecules and devices enables us to offer a wide array of integrated anatomic and clinical pathology services with flexibility and timeliness to our clients' needs every step of the way.

CiToxLAB

417

445 Armand-Frappier BLVD
Laval, QC H7V 4B3
Canada
Tel: 450-973-2240
Email: duguayf@ca.citoxlab.com
Website: www.citoxlab.com

CiToxLAB is a global preclinical CRO with facilities in France, Canada, Denmark and Hungary. CiToxLAB offers a range of preclinical services to meet the needs of Pharma, Biotech and Chemical industries worldwide. These include: Toxicology (general, DART, juvenile, infusion, inhalation, carcinogenicity, transgenics) and Safety pharmacology (including EEGs). Other expertise include: Drug discovery, metabolism/PK, genotoxicology, toxicogenomics, bioanalysis, immunology, ecotoxicology, radiation safety (ARS), NHPs and minipigs. CiToxLAB offers scientific support and on-time quality reporting.

Datacolor Inc.

403

5 Princess Road
Lawrenceville, NJ 08648
Tel: 610-704-7272
Email: mclymer@datacolor.com
Website: scientific.datacolor.com

Datacolor is pleased to demonstrate Datacolor CHROMACAL™, an innovative image standardization solution for brightfield microscopy. The first of its kind, Datacolor CHROMACAL standardizes the color in digital images to deliver a consistent and reliable basis for evaluation, analysis, documentation and publication. With both image and monitor calibration, and imaging system quality control diagnostics, Datacolor CHROMACAL ensures color consistency throughout the imaging process. Visit BOOTH #403 and experience Datacolor CHROMACAL for yourself.

Elixir Software Ltd

411

Alderley BioHub, Alderley Park
Macclesfield, Cheshire SK10 4TG
United Kingdom
Tel: +44 (0)1625 238646 / (0)7557640269
Email: enquiries@elixirsoftware.co.uk
Website: www.elixirsoftware.co.uk

Elixir Software provides visual software tools to co-ordinate and deliver science successfully and efficiently. We are experienced in meeting scientific workflow co-ordination problems with responsive software solutions - quickly. We have various solutions used in Safety Science, including Pathology and externalization of safety studies.

Elsevier, Inc.

600

1600 John F Kennedy Blvd, Suite 1800
Philadelphia, PA 19103
Tel: 215-239-3722
Fax: 215-239-3494
Email: k.pollock@elsevier.com
Website: www.elsevierhealth.com

ELSEVIER is a leading publisher of health science publications, advancing medicine by delivering superior reference information and decision support tools to doctors, nurses, health practitioners and students. With an extensive media spectrum — print, online and handheld, we are able to supply the information you need in the most convenient format.

EPL Archives

503

45610 Terminal Drive
Sterling, VA 20166
Tel: 703-435-8780
Fax: 703-435-1330
Email: atyler@eplarchives.com
Website: www.eplarchives.com

EPL Archives provides its service to approximately 85% of the top 50 pharmaceutical companies in the industry, and to more than 700 total clients. EPL Archives has been providing regulatory-compliant archiving and related services since it was founded in 1978, and is recognized internationally as a leader in the archival field. Our professional services include packaging, transportation, material preparation, inventory, and specialized archiving of wet tissue, blocks, slides, paper data, test articles, radio-labeled specimens, refrigerated and frozen samples, film, microfilm, & computer media.

EPL, Inc

505

45600 Terminal Drive
Sterling, VA 20166
Tel: 703-471-7060
Fax: 703-471-8447
Email: psanders@epl-inc.com
Website: www.epl-inc.com

Experimental Pathology Laboratories, Inc. (EPL) is the world's largest independent provider of GLP-compliant toxicologic pathology services. Since 1971, EPL has provided necropsy and histology support, pathology evaluation and consultation including pathology peer review and organizing Pathology Working Groups (PWG) for industry and government clients. We are able to customize our services to meet our clients' specific scientific, regulatory and management objectives.

Fimmic

309

Tukholmankatu 8
00290 Helsinki, Finland
Tel: +358 20-734-9130
Email: contact@fimmic.com
Website: www.fimmic.com

WebMicroscope® Software is a web-based platform for storing, sharing and analyzing whole slide images of scanned tissues and biopsies, acquired by any major microscope scanner. By connecting the WebMicroscope to large multitouch displays, we have created a unique virtual microscope, offering massive visualization and unique interactivity for collaboration and teaching.

Flagship Biosciences

516

7575 W. 103rd Avenue, Suite 102
Westminster, CO 80021
Tel: 303-325-5894
Email: PathServices@FlagshipBio.com
Website: www.flagshipbio.com

Flagship Biosciences is setting the standard for quantitative histopathology services. Flagship works with over 100 biotech, pharma and device clients in all disciplines of tissue analysis. Our histology and IHC laboratory has advanced over 400 antibodies. We provide substantial experience in tissue analysis and immuno-oncology with a team of pathologists, biologists, engineers, histologists and regulatory personnel. Projects range from early stage studies through large, late stage, CLIA-based clinical trials or IDE image analysis companion diagnostics filings.

HistoTox Labs, Inc.

501

2108 55th Street, Suite 110
Boulder, CO 80301
Tel: 303-633-5401
Fax: 303-565-3764
Email: jbishop@histotoxlabs.com
Website: www.histotoxlabs.com

HistoTox Labs is a GLP compliant contract laboratory performing routine and specialized Histology, Immunohistochemistry, Digital Image Analysis and Pathology services. Additional services include decalcified bone techniques, antibody optimization, full slide scanning, special stains and frozen techniques. Our commitment to outstanding customer service, high quality sections, competitive pricing and quick turnaround times, have made HistoTox Labs the ideal source for reliable histopathology services for over 12 years.

HSRL, Inc. (Histo-Scientific Research Labs)

401

5930 Main Street
Mt. Jackson, VA 22842
Tel: 540-477-4440
Fax: 540-477-4448
Email: pschwartz@hsrl.org
Website: www.hsrl.org

HSRL is known for expertise, quality and efficiency in the areas of necropsy, histology, pathology and archiving. Our necropsy team works on-site at your facility. Histology services include standard stains, special stains and immunohistochemistry. Our board-certified veterinary pathologists offer 25+ years of experience. We offer morphometry and high resolution digital imaging. Long-term storage available with 24-hour retrieval for ambient, refrigerated and frozen (-20 & -80) materials. We support GLP and non-GLP studies in a responsive and cost-effective manner.

IDEXX BioResearch

603

2825 KOVR Drive
West Sacramento, CA 95605
Tel: 916-267-2545
Fax: 916-372-2783
Email: kristina-garner@idexx.com
Website: idexxbioresearch.com

Service & science, hand in hand with you. Researchers involved in preclinical and veterinary clinical testing in virtually every setting-from leading pharmaceutical and biotechnology companies to respected academic institutions-trust IBR Research Reference Labs to deliver the highest quality out-sourced laboratory results, supported by board-certified pathologists, experienced technicians, and certified technologists. Using rigorously validated, state-of-the-art analyzers and methodologies, we are committed to being your one-stop, 100% accurate, trusted research partner.

ImageIQ

511

26801 Miles Road, Suite 103
Cleveland, OH 44128
Tel: 855-462-4347
Fax: 855-462-4347
Email: apeters@image-iq.com
Website: www.image-iq.com

ImageQuantify.com provides web-based image analysis software for common preclinical assays, for validated, objective quantifiable data. With the ease of online tools and cloud storage, you can now extract the quantitative data you need, provide access for all researchers involved, and manage the data over the length of your research project all while improving accuracy and consistency. With secure, web-based image analysis, storage, and results access, researchers can perform better science, faster, while reducing costs. And if you don't find the assay you need, we can build one for you.

Indica Labs, Inc.

405

2469 Corrales RD Bldg, Suite A-3
Corrales, NM 87048
Tel: 505-492-0979
Email: liz@indicalab.com
Website: indicalab.com

Indica Labs is the first company to offer tissue specific and application specific image analysis algorithms in a truly integrated digital pathology environment. Pharmaceutical, healthcare, and research organizations worldwide utilize Indica tools for high-throughput, whole-slide image quantification in areas such as neuroscience, metabolism, oncology, toxicological pathology, and more.

Instem

404

161 Washington Street, Suite 1550
Conshohocken, PA 19428
Tel: 610-941-0990
Fax: 610-941-0992
Email: Beth.Concordia@instem.com
Website: www.instem.com

The Provantis® Pathology solution is comprehensive, intuitive and extremely flexible, enabling today's pathologist in the efficient collection, processing and reporting of data. Installed on-site or accessed via the Instem Cloud, we keep you focused on the science, not the software. Be sure to also learn about the most widely adopted set of tools and services for the creation & management of SEND datasets - backed by the industry's leading authorities on SEND. Powerful Solutions – Unique Perspective – Global Coverage.

International Academy of Toxicologic Pathology (IATP)

315

116 White Owl Trail
Mullica Hill, NJ 08062
Tel: 856-233-5174
Email: iatpfellows@verizon.net
Website: www.iatpfellow.org

The International Academy of Toxicologic Pathology (IATP) objectives are to establish standards of excellence in education, training, and practice in toxicologic pathology; to advise government policy leaders on issues relevant to toxicology and pathology; and to develop expert opinions on issues relevant to toxicologic pathology. Academy fellows are scientists globally recognized by their peers based on highest professional accomplishments in toxicologic pathology and scientific contributions.

inviCRO

515

27 Drydock Avenue, 7th Floor West
Boston, MA 02210
Tel: 617-904-2117
Email: info@invicro.com
Website: www.invicro.com

inviCRO is an imaging informatics company offering full-service tissue-to-human imaging, analysis and data management services powered by their industry-leading software platforms. inviCRO's image processing suite (VivoQuant™) and data management platform (iPACS®) are used by a majority of the top 25 pharmaceutical companies.

Vista, CA 92081
Tel: 760-539-1100
Fax: 760-539-1164
Email: aperio@leicabiosystems.com
Website: www.LeicaBiosystems.com/aperio

Leica Biosystems, Aperio ePathology solutions, are transforming the practice of pathology. Whether performing basic research, biomarker discovery, drug safety, or toxicologic pathology studies, Aperio equips teams to accelerate innovation, increase productivity, transcend barriers, and reduce costs. Easily run studies from start to finish via a central hub that can scale across organizations. Improve consistency, accuracy, and reproducibility of study data with easy-to-use analytic tools. Streamline collaboration with global, real-time viewing of eSlides and study records.

Marshall BioResources

514

5800 Lake Bluff Road
North Rose, NY 14516
Tel: 315-587-2295
Fax: 315-587-2109
Email: nnavratil@marshallbio.com
Website: www.marshallbio.com

Marshall BioResources is a global provider of purpose bred animals for biomedical research and related services. We provide Marshall Beagles from our harmonized breeding facilities in both the United States and China. We also provide ferrets, mongrels and hounds, and Gottingen Minipigs from our AAALAC accredited facilities in the United States. Rodents and additional services are available via our facilities in the United Kingdom. Our animals have been recognized as standard research models, known for their good health, genetic consistency, gentle temperament and uniformity.

Morris Animal Foundation

601

720 S. Colorado Blvd., Suite 174A
Denver, CO 80246
Tel: 303-708-3420
Email: tmcp@mail@morrisanimalfoundation.org
Website: www.morrisanimalfoundation.org

Morris Animal Foundation is a nonprofit organization that invests in science to advance animal health. The Foundation is a global leader in funding scientific studies for companion animals, horses and wildlife. Since its founding in 1948, Morris Animal Foundation has invested more than \$92 million toward 2,300 studies that have led to significant breakthroughs in diagnostics, treatments, preventions and cures for animals.

Morris Animal Foundation is the place where science meets HOPE.

MPI Research

301

54943 North Main Street
Mattawan, MI 49071
Tel: 269-668-3336
Fax: 269-668-4151
Email: info@mpiresearch.com
Website: www.mpiresearch.com

MPI Research, with global headquarters in Mattawan, Michigan, provides safety evaluation, discovery, bioanalytical, and analytical – and now phase I clinical – services to the biopharmaceutical, medical device, animal health, and chemical industries. The company also offers comprehensive imaging solutions including preclinical and clinical imaging, radiochemistry, and data analysis. Scientific knowledge and experience, responsiveness, integrity, trust, teamwork, and dedication to strong and enduring Sponsor relationships are the defining attributes that characterize MPI Research as a high-performance, high-quality organization that is committed to bringing safer and more effective products to the world.

Noah's Arkive
