

ACVP, ASVCP, and ISACP 2021 Awards

Congratulations to the following abstract award recipients from the 2021 Annual Meeting!

ACVP/AAVLD Diagnostic Pathology Travel Award

Congratulations to the ACVP/AAVLD Diagnostic Pathology Travel Award Recipient!

Poster D-45

Ryan Yanez, Michigan State University

SARS-COV-2 INFECTION IN TWO FARMED MINKS (NEOVISON VISON)

Runner-Up

Poster D-40:

Sophie Nelissen, Cornell University

COMPARISON OF ANTI-MULLERIAN HORMONE AND INHIBIN IMMUNOLABELING IN CANINE AND EQUINE GRANULOSA CELL TUMORS

Pathology of Wildlife and Zoo Animals Travel Award

Congratulations to the recipient of the 2021 Pathology of Wildlife and Zoo Animals Travel Award!

Poster N-37

Sara Pagliarani, The University of Queensland, Australia

IMMUNE RESPONSE TO CHLAMYDIA SPP. INFECTION IN THE MALE AND FEMALE REPRODUCTIVE SYSTEM IN KOALAS (PHASCOLARCTOS CINEREUS)

Honorable Mention

Chloé Rosa-Teijeiro, University of Montreal, Canada

THE HONEYBEE CYTOLOGY ATLAS : A RESOURCE FOR VETERINARIANS

Society of Toxicologic Pathology Resident and Student Poster Award

Congratulations to the recipient of the 2021 Society of Toxicologic Pathology Resident and Student Poster Award!

Poster E-02

Stephanie Myers, Johns Hopkins University

Targeting the sterol regulatory element-binding protein pathway in pancreatic ductal adenocarcinoma

Veterinary Student Poster Awards

Congratulations to all 2021 Veterinary Student Poster Awardees!

Clinical Cases

First Place

Skyler Turner, Mississippi State University

Speciation of the etiologic agent of canine leproid granuloma syndrome using PCR on FFPE tissue samples

Second Place

SP-40

Bridgette Katarina Gunn, University of Florida

Presumed Solitary Ocular Lymphosarcoma (PSOL) in a 9-month-old cat

Third Place

SP-74

Jason Sousa, Texas A&M University

White Chick Syndrome in commercial broilers in Texas

Experimental Disease

First Place

Elise Peauroi, University of Pennsylvania

Ectromelia virus c15 protein facilitates pathogenesis in vivo by antagonizing both the innate and adaptive immune responses

Second Place (tie)

SP-41

Laurel A Haines, Colorado State University

Osteosarcoma exosomes selectively home to the lung and elicit pro-tumorigenic changes in resident lung cell populations

Second Place (tie)

SP-77

Brianna R Stoye, University of California, Davis

Effects of receptor tyrosine kinase inhibition on canine glioma cell lines in vitro

Third Place

SP-42

Samantha M Hammack, University of Illinois Urbana-Champaign

Novel mutation associated with globoid cell leukodystrophy in a family of border collie mix dogs

Young Investigator Awards

Congratulations to all the 2021 Young Investigator Awardees!

Diagnostic Pathology

First Place:

Poster D-49

Hayley Amerman, University of Pennsylvania

German shorthaired pointer dogs with exfoliative cutaneous lupus erythematosus develop immune-complex membranous glomerulonephropathy

Second Place:

Poster D-55

Emma Torii, University of Minnesota

Adenovirus infection in red-tailed hawks (*buteo jamaicensis*) and a broad-winged hawk (*buteo platypterus*)

Third Place

Poster D-40

Sophie Nelissen, Cornell University

Comparison of anti-mullerian hormone and inhibin immunolabeling in canine and equine granulosa cell tumors

Experimental Disease

First Place

Poster E-15

Ivanna V Kozii, University of Saskatchewan

Does blueberry pollen predispose honey bees to European foulbrood disease?

Second Place

Poster E-11

Tzushan Sharon Yang, North Carolina State University

Infecting amblyomma americanum ticks with cytauxzoon felis via direct injection

Third Place

Poster E-21

Mauricio A. Navarro, University of California, Davis

The role of the clostridium perfringens agr-like quorum sensing (qs) system in a mouse model of gas gangrene

Industrial & Toxicologic Pathology

First Place

Kimberly M Demos-Davies, University of Minnesota

Cancer treatment induced cognitive impairment and neuroinflammation in mice

Second Place

Ivanna V Kozii, University of Saskatchewan

Are detoxification enzymes induced similarly across honey bee castes in response to neonicotinoid exposure?

Third Place

Mackenzie Long, The Ohio State University

Characterization of resistance to prmt5 inhibitor therapy in mantle cell lymphoma

Natural Disease

First Place

Poster N-06

Soma Ito, University of Tokyo

Involvement of felis catus papillomavirus type 2 in the tumorigenesis of feline merkel cell carcinoma

Second Place

Poster N-05

Kevin M. O'Brien, The Royal Veterinary College

Histopathological subtyping, molecular and viral characterization of equine genital and periocular squamous cell carcinomas

Third Place

Poster N-35

Mari Inohana, Nippon Veterinary and Life Science University

Retrospective analysis of mycobacteriosis in aquarium housed elasmobranchs

Honorable Mention

Poster N-38

Ursula G Perdrizet, University of Saskatchewan

Pathology of eptesipox virus in naturally infected big brown bats
